BVB 93 wanders through the rain in Villars in May 2004.
Photo: Roger Phelps

Michael Farr entered this gem in a competition that did not happen due to lack of space at a recent exhibition. It was in the section "Why I keep going back to Switzerland". For the weather apparently.

Toggenburg took this picture at Göschenen on 30.08.04. It's a test train and eventually parked up there for the night.

At the summit terminus of the BVB. At least it wasn't raining said Roger Phelps who took the photo in May 2004

SVB Combino 5 section car 752 Hauptbahnhof, in the new SVB livery of predominantly red. These vehicles were being delivered during 2003. These vehicles have replaced all the 'Swiss Standard' bogie cars.

Photo: Neil Wheelwright who suffered for his art.

Dave Howsam took this picture of the only vehicle on the RhW system, one track and one point I believe. It was in September 2004 at Rheineck Bhf. Dave does not say whether it was actually raining at the time but I like to think that he too suffered for his art!
