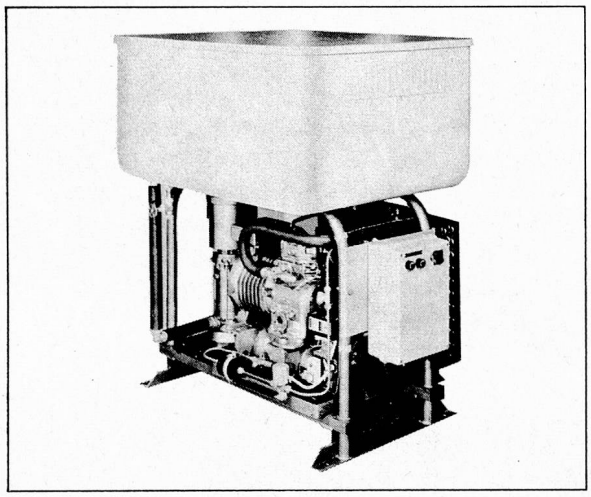
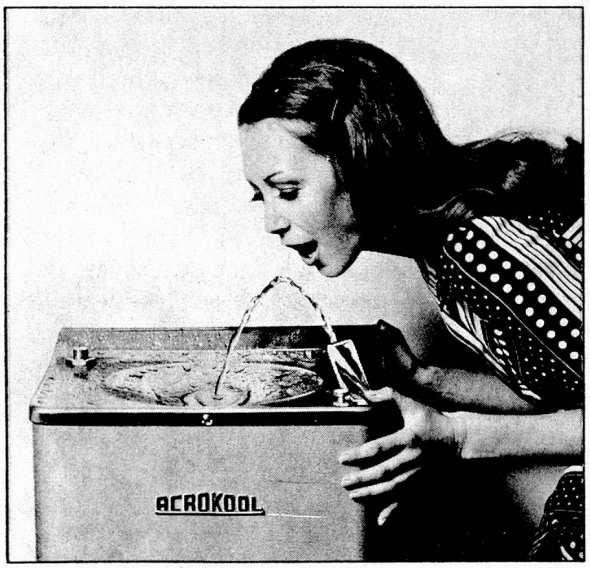
Then install ACRO-KOOL water coolers . . .



. . . for process chilling

The Acro-Kool range of Remote Water Coolers offers a versatile, logical approach to water cooling problems. In particular, this range has been developed to meet the many occasions where water must be maintained at a constant temperature below ambient conditions. It's worth noting, in times of threatened water shortages, that provision has been made for recirculating. Special attention has been given to the return feed arrangement to ensure thorough mixing and uniform distribution. Please send for the brochure.



. . . for drinking

Remember the summer of '76? The more the temperature increased, the more efficiency decreased. Stop sweating. Install an Acro-Kool free-standing water cooler right now. Each unit supplies instant chilled water on tap whenever its needed. Acro-Kool drinking water coolers are easy to install and maintain and can be positioned almost anywhere. Write for details today.
