ACTA TROPICA Supplementum № 7

Pests of Crops in Warm Climates and their Control

by R. Wyniger

Price: Basic volume and Appendix Swiss Francs 210.—
Appendix alone sFr. 50.—

This manual informs farmers, agronomists and all institutes and authorities engaged in plant protection about important biological facts of pests on crops.

A revised and enlarged Appendix includes all new active substances appearing on the market together with particulars of their modes of action and their application in plant protection. It has just been published to this well established Manual which is now generally recognized as a standard work.

Verlag für Recht und Gesellschaft AG, Basel
