# Tropical Diseases Research Series

Published on behalf of the

UNDP / WORLD BANK / WHO

Special Programme for Research and Training in Tropical Diseases

The series will deal with current outstanding problems in research related to the control of major infectious tropical diseases. It is intended to attract scientists working in other disciplines to the problems and opportunities for research which are offered by the infective agents of concern to the Programme, and to acquaint those already working on these organisms with new awareness for investigation which advances in other biomedical sciences may offer.

The Special Programme is a goal-oriented research and training programme with two objectives: (1) Research and development to obtain new and improved tool for the control of major tropical diseases, and (2) Strengthening of the research capability of the tropical countries.

## **No. 1: The Role of the Spleen in the Immunology of Parasitic Diseases**

Proceedings of the Meeting held in Geneva, 12-14 June 1978

1979. 306 pages, 47 figures, 39 tables. Paper sFr. 38.-/DM 44.-. ISBN 3-7965-0751-4

Contents

Introduction (J.H. Humphrey) – Spleen (L.P.Weiss) – Reticuloendothelial System (L.P.Weiss) – Lymphocyte Recirculation Between Spleen and Blood (W.L. Ford) – Specific Sequestration of Lymphocytes in the Spleen During the Immune Reponse: Role of the Major Histocompatibility Complex (J. Sprent) – Splenic Regulation of Humoral and Cellular Immunological Responses in Other Domains (J.R. Battisto) – Spleen and Splenic Lymphocytes in Immunity (G.F. Mitchell) – Immunosuppression in Trypanosomiasis and Malaria (Christine E. Clayton) – Role of the Spleen in Chagas' Disease (Z. Brener) – *Trypanosoma Cruzi*: Cell-mediated Immunity *In Vitro* (Nadia Nogueira) – Role of the Spleen in Protection Against Murine Babesia Infections (A.C. Allison) – Role of the Spleen in Malaria Infections (C.N. Oster) – Preliminary Investigations on the Role of the Spleen in Immunity to *Plasmodium Knowlesi* Malaria (J. Langhorne) – Tropical Splenomegaly Syndrome (B.M. Greenwood) – Serology of Tropical Splenomegaly Syndrome and its Relationship to Malaria (G.G. Crane) – Role of the Spleen in the Origin of Some Clinical and Immunological Features of Alveococcosis and Echinococcosis (N.N. Ozeretskoykaya) – Role of the Reticuloendothelial System in the Clearance and Destruction of Circulating Cells Coated with Antibody and Complement (M.M. Frank) – Role of the Spleen in the Removal of Senescent Red Cells and the Hypersplenic Syndrome (P.A. Miescher)
