ACKNOWLEDGEMENTS

This paper represents a portion of a Ph.D. dissertation conducted under the direction of Dr. Anton A. Reznicek and submitted in 1995 to the Horace H. Rackham School of Graduate Studies in the University of Michigan.

I wish to express my gratitude Dr. Reznicek for invaluable comments and suggestions and for his interest, encouragement and assistance throughout the study. I thank Prof. William R. Anderson, Prof. Warren H. Wagner, Jr., Prof. Robert Fogel, and Dr. Iñigo Granzow-de la Cerda for critiques and constructive comments on earlier drafts of the manuscript. I thank Dr. Socorro González-Elizondo for reviewing the treatment of *V. nuevo-leonensis*. I am indebted to Prof. Werner Greuter and Prof. Edward G. Voss for their constructive advice on the problem of the authorship of subsection *Boreali-Americanae*, and to Prof. C. Clara Heyn for encouragement and suggestions on the publication of this work.

I wish to thank the directors, curators, and staff of the following herbaria for sending specimens on loan or for allowing me to consult the collections in their herbaria as a visitor: CAS, DUKE, FSU, HUH, MICH, MO, NDG, NY, RSA, UC, UNC, US, WIS, and VT (abbreviations follow HOLMGREN & al., 1990). I also thank Dr. Harvey E. Ballard, Jr. for arranging and sending me subloans of *V. nuevo-leonensis* and *V. nephrophylla*, and helpful discussions on *Viola* in México.

I wish to express gratitude to the following curators for their special assistance. Thanks to Barbara J. Hellenthal (NDG) for her excellent assistance in locating Greene types bearing mature seeds, researching the correspondence between E. L. Greene and J. M. Macoun and E. L. Greene and B. F. Bush, and for arranging my visit to the University of Notre Dame Libraries to examine LeConte's water-colors; A. Roy Vickery for searching for type material at BM, and sending photographs of the types of *Viola cucullata*, *V. sagittata*, and *V. villosa*; Dr. Nicholas Turland (BM) for locating and sending photographs of the type of *V. fimbriatula* at LINN; Michael J. Shchepanek for searching for Macoun's specimens of *V. septentrionalis* and Greene's correspondence at CAN; Prof. Paul Hiepko for sending negatives of the three sheets of *V. sororia* Willd. at B-W, and providing helpful information and comments on the specimens and their annotations; Dr. Patricia K. Holmgren and Dr. Thomas A. Zanoni for locating the types of *V. pectinata* and *V. missouriensis* and for searching for the holotype of *V. egglestonii*, and Dr. Jacquelyn A. Kallunki for locating the type of *V. brittoniana* and *V. atlantica* at NY. Thanks are also extended to the curators and directors of the following herbaria for searching for the type specimen of *V. pedatifida*: BR, E, GOET, K, LD, MO, and OXF.

The encouragement received during the study from my family, colleagues, and friends, and the assistance received from the staff members at the University of Michigan Herbarium are greatly acknowledged. I thank Susan A. Reznicek for her collaboration and for her excellent line drawings.

I wish to thank the following for their assistance in the field and/or for providing information and recommendations about field sites to explore: Dr. Loran C. Anderson (FL), Dr. David S. Barrington (VT), Dr. Jerry M. Baskin (KY), William W. Brodowicz (MI), William Carr (TX), Elaine M. Chittenden (MI), Don Henson (MI), Dr. Peter W. Fritsch (MI), Angus Gholson, Jr. (FL), Marcella González-Alvarez and Marco Antonio Guzmán Lucio (Nuevo León, México), Phyllis Higman (MI), Dr. Walter S. Judd (FL), Dr. Barney Lipscomb (TX), A. Gerry Moore (NJ, TN), Dr. Robert F. C. Naczi (the Southeastern U.S.), Dr. Cathy A. Paris (VT), Mike Penskar (MI), Jay A. Raveill (TN), Dr. Edwin B. Smith (AR), Bruce A. Sorrie (MA), Dr. Anton A. Reznicek (ME, MI), Dr. Warren H. Wagner, Jr. (MI), Pamela B. Weatherbee (MA), Dr. George A. Yatskievych (MO). Special thanks to Angus Gholson, Jr. (FL), David E. and Ora Gil-ad (CA, BC), A. Gerry Moore (TN), Barbara L. Wilson (IA) and Dr. Anton Reznicek (VA) for collecting

and shipping me live *Viola* species in spring 1992 when I was not able to get out to the field due to my leg injury.

Thanks to The Horace H. Rackham School of Graduate Studies for facilitating my research with the award of a Rackham Dissertation/Thesis Grant in 1993. The additional support for research provided by the Graduate Student Research Grant of the American Society of Plant Taxonomists in 1992, and the Angeline B. Whittier Fellowship in Botany in 1991 and 1992, is acknowledged.
