«Trends in Steel Structures for Mining and Building» Johannesburg, South Africa, August 7 – 8, 1991

Theme of the Conference

The Theme «Trends in Steel Structures for Mining and Building» is considered uniquely appropriate in view of the large mining and beneficiation industries in Southern Africa.

The conference will concentrate on the latest trends in the design, fabrication and constructional aspects of steel structures used in mining and building.

Aspects which are to be covered include:

- Mining Structures both above and below surface
- Containment Structures – all types
- Industrial Structures – all types
- Commercial Structures including Composite construction

The conference will take place in Johannesburg. It will be organized by the South African Group of IABSE in conjunction with the South African Institute of Steel Construction.

Further information can be obtained from
Mr. C. Davies
South African Institute of Steel Construction (SAISC)
PO Box 1338
Johannesburg
2000 South Africa
Tel.: Int + 27 1 1-838 1665
Fax: Int + 27 1 1-834 4301

Call for papers

A call for papers is addressed to all Structural Engineers worldwide. Participants wishing to present a contribution are kindly invited to submit before June 30, 1990, to SAISC a detailed abstract relating to one of the aspects mentioned above.

The selection of abstracts will be done in September 1990 and accepted full papers will be remitted not later than January 1991 to SAISC.

Examples of Industrial, Commercial and Mining Structures
