These proceedings contain the reports presented at the colloquium, with the exception of a few of them which have been published elsewhere. References are given in these cases.

The oral presentation of the reports is not reproduced.

Free discussions are given in abridged form for each session on the basis of the tape records. However we have to apologize to the participants concerned by certain interventions which have not been recorded.

Acknowledgement is due to my assistants and secretaries who have efficiently helped in the preparation of the colloquium and during the sessions : Berthe Weizenbaum, Catherine Le Foll, Jeannette Martinez, Marie-Thérèse Join and Michèle Gervais.

Tape records of the discussions have been transcribed due to the courtesy of Dr. Le-Wu Lu.

Yvon Lescouarc'h has greatly helped in editing these proceedings during his free time. Catherine Le Foll and Hélène d'Orgeval have ensured their presentation in camera-ready form.
