About the Colloquium

Scope

The Colloquium was intended to provide the opportunity for invited specialists involved in the development and application of expert systems in civil engineering to meet and exchange their experiences.

Objective

The Colloquium focused on developments and applications in the following areas:

- Expert system technology
- Expert systems for operation, maintenance and damage assessment of structures
- Expert systems for design and construction
- Expert systems for codes and in other areas of civil engineering

All the written contributions invited and accepted have been shared by the Scientific Committee among four Working Sessions concerning the above mentioned areas respectively.

Organization

The Colloquium was organized by the IABSE Working Commission VI in cooperation with the Italian Group of IABSE and ISMES, which was responsible for the secretariat and local arrangements in Bergamo.

Participation was restricted to the invited Authors and to a limited number of registrants involved in engineering fields related to the Colloquium themes.

Place

ISMES provided all the facilities for working sessions, technical demonstrations, etc. at the «Cristallo Palace Hotel - Conference Centre» of Bergamo (Italy).
