### Nutzungsbedingungen

Die ETH-Bibliothek ist die Anbieterin der digitalisierten Zeitschriften auf E-Periodica. Sie besitzt keine Urheberrechte an den Zeitschriften und ist nicht verantwortlich für deren Inhalte. Die Rechte liegen in der Regel bei den Herausgebern beziehungsweise den externen Rechteinhabern. Das Veröffentlichen von Bildern in Print- und Online-Publikationen sowie auf Social Media-Kanälen oder Webseiten ist nur mit vorheriger Genehmigung der Rechteinhaber erlaubt. [Mehr erfahren](#)

### Conditions d'utilisation

L'ETH Library est le fournisseur des revues numérisées. Elle ne détient aucun droit d'auteur sur les revues et n'est pas responsable de leur contenu. En règle générale, les droits sont détenus par les éditeurs ou les détenteurs de droits externes. La reproduction d'images dans des publications imprimées ou en ligne ainsi que sur des canaux de médias sociaux ou des sites web n'est autorisée qu'avec l'accord préalable des détenteurs des droits. [En savoir plus](#)

### Terms of use

The ETH Library is the provider of the digitised journals. It does not own any copyrights to the journals and is not responsible for their content. The rights usually lie with the publishers or the external rights holders. Publishing images in print and online publications, as well as on social media channels or websites, is only permitted with the prior consent of the rights holders. [Find out more](#)

ÉCOLE POLYTECHNIQUE FÉDÉRALE DE LAUSANNE

## Faculty Position in Civil and Environmental Engineering

at the Ecole Polytechnique fédérale de Lausanne (EPFL)

EPFL's School of Architecture, Civil and Environmental Engineering seeks a

**Tenure-Track Assistant Professor of Geo-Engineering focusing on CO<sub>2</sub>**

Sequestration. It is our intention to hire at the level of Assistant Professor (Tenure Track) but in suitable cases an appointment at the Associate or Full Professor levels will be considered.

The future success of CO<sub>2</sub> sequestration in deep, geologically secure formations, either on-shore or off-shore, remains uncertain due to numerous technological and scientific challenges. These challenges include an improved understanding of: the physico-mechanical and bio-geochemical processes involved, the roles of geological controls and well technologies on long term storage, methods for locating storage sites and monitoring of their performance, large-scale mathematical modeling combined with field evidence, especially on geochemical interactions. We seek applications from highly qualified scientists and/or engineers committed to a career aiming at excellence in research and teaching. Applications are welcomed from all disciplines pertinent to CO<sub>2</sub> sequestration, including, but not limited to, geology, geochemistry, environmental and civil engineering and applied mathematics. The successful applicant will have potential for developing a research profile characterized by novel accomplishments, competitive grant funding and an interdisciplinary, collaborative vision. A broad vision of geo-engineering is sought, as is the ability to collaborate across disciplines as customary in the ENAC School at EPFL today

Successful candidates are expected to initiate independent research programs and participate in undergraduate and graduate teaching. Substantial start-up resources will be available. We offer internationally competitive salaries and benefits

Applications should include a résumé with a list of publications, a concise statement of research and teaching interests, and the names and addresses (including e-mail) of at least four referees. Applications should be submitted electronically to <http://enac.epfl.ch/page-2114.html> by **1<sup>st</sup> April 2011** when formal screening of applications will begin.

Informal enquiries may be made to:  
Professor Andrea Rinaldo, [andrea.rinaldo@epfl.ch](mailto:andrea.rinaldo@epfl.ch)

Additional information about EPFL is available at <http://www.epfl.ch>, <http://enac.epfl.ch>.

Ecole polytechnique fédérale de Lausanne is an equal opportunity employer.

Women candidates are particularly encouraged to apply.

Formation

Hes-so  
Haute Ecole Spécialisée de Suisse occidentale
