## ABSTRACT

BOULOS, L. & H. FREITAG (1991). Notes on the Chenopodiaceae in Collenette's Illustrated Guide to the Flowers of Saudi Arabia. *Candollea* 46: 81-84. In English, French and English abstracts.

The Chenopodiaceae identifications in Collenette's Illustrated Guide to the Flowers of Saudi Arabia (1985) are updated and corrected.

The present authors are currently working on the family Chenopodiaceae for the Flora of the Arabian Peninsula (BOULOS) and for Flora Iranica (FREITAG). The aim of this paper is to provide updated and correct identifications of the Chenopodiaceae species illustrated in COLLENETTE (1985). The names given by COLLENETTE, l.c. are referred to with the corresponding page number, followed by the updated or corrected names. If the name of a species originally given by her is correct, including the authority, it is followed by "read: same". If the authority is incomplete or needs correction, the scientific name of the species as well as the authority are given by us. In all cases of doubtfully or incompletely identified species, the correct name and authority are given.
