# Typification of the name *Allaeanthus kurzii* Hook. f. (Moraceae)

Gautam Kumar Upadhyay, Sunil Kumar Srivastava & Anis Ahmed Ansari

## Abstract

UPADHYAY, G. K., S. K. SRIVASTAVA & A. A. ANSARI (2010). Typification of the name *Allaeanthus kurzii* Hook. f. (Moraceae). *Candollea* 65: 21-22. In English, English and French abstracts.

A lectotypification of the name *Allaeanthus kurzii* Hook. f. (Moraceae, tribe Moreae) ( $\equiv$  *Broussonetia kurzii* (Hook. f.) Corner) is proposed. The lectotype specimen, Griffith (*Kew Distrib.* 4675), is kept at the Royal Botanic Gardens, Kew (K).

## Key-words

MORACEAE – *Allaeanthus* – *Broussonetia* – Typification

## Résumé

UPADHYAY, G. K., S. K. SRIVASTAVA & A. A. ANSARI (2010). Typification du nom *Allaeanthus kurzii* Hook. f. (Moraceae). *Candollea* 65: 21-22. En anglais, résumés anglais et français.

Le nom *Allaeanthus kurzii* Hook. f. (Moraceae, tribu des Moreae) ( $\equiv$  *Broussonetia kurzii* (Hook. f.) Corner) est lectotypifié. Le spécimen choisi, Griffith (*Kew Distrib.* 4675), est conservé dans l'herbier des Jardins royaux de Kew (K).

Submitted on August 13, 2008. Accepted on February 4, 2010.

Edited by P. Perret

## Introduction

The genus *Allaeanthus* (*Moraceae*, tribe *Moraceae*) was first described by THWAITES (1854), and was later reduced to a section of *Broussonetia* Vent. by CORNER (1962). BERG & al. (2006) accept the synonymization of *Allaeanthus* with *Broussonetia* but do not maintain the sectional treatment of CORNER (1962).

During the revision of the family *Moraceae* for the 'Flora of India' (excluding *Ficus* L.), the typification of the name *Allaeanthus kurzii* Hook. f. (= *Broussonetia kurzii* (Hook. f.) Corner) arose. *Allaeanthus kurzii* was reported in India from Assam and Arunachal Pradesh states and is very much localized in these two regions (KANJILAL & al., 1940; GRIERSON & al., 1983; BERG & al., 2006). HOOKER (1888) based *Allaeanthus kurzii* on four collections: "ASSAM, Masters; at Goalpara, Clarke. BURMA, Griffith (*Kew Distrib.* 4657). PEGU to TENASSERIM, Kurz". Out of these, the specimen from Burma (Myanmar), Griffith (*Kew Distrib.* 4657), is chosen as lectotype. Figures of the female parts of the plant, drawn on the sheet and on which the description evidently relies, support this choice.

*Allaeanthus kurzii* Hook. f., *Fl. Brit. India* 5: 490. 1888.

≡ *Broussonetia kurzii* (Hook. f.) Corner in *Gard. Bull. Singapore* 19: 234. 1962.

**Lectotypus** (designated here): **MYANMAR (BURMA)**: Herbarium of the late East India Company, Birma, s.d., Griffith (*Kew Distrib.* 4657) [female plant] (K! [K0003 57622]) (Fig. 1).

The rest of the syntypes is kept at Central National Herbarium (CAL), Howrah.

## Acknowledgements

We are thankful to the Director, Botanical Survey of India for providing the necessary facilities. We also thank the Board of Trustees, Royal Botanic Gardens, Kew for the permission to reproduce the image of the type specimen and the anonymous reviewer for his helpful suggestions.
