Keep the date 9th April open.

NEWS OF THE COLONY NEWS FROM THE EMBASSY

We will most certainly be aware that the Swiss Parliament has continued to impose stringent restriction which consist, among other things, in the curtailment of expenditure in the Federal Administration. This has, much to the regret of the Embassy, also noticeable repercussions on the allocation of personnel for the Swiss diplomatic and consular representations abroad. The fact that the number of Swiss and Dual Nationals in New Zealand registered increased over the last three years, has not spared this Embassy from having its number of staff cut down by one unit.

The increasing number of visitors on the other

The increasing number of visitors on the other hand, has forced the Embassy to introduce as from the 1st of March 1981, a new system which consists in regulating the visiting hours as follows:

RECEPTION HOURS

10 a.m. - 1 p.m. Monday - Friday

The office hours will remain as before:

8.30 a.m. - 5 p.m. Monday - Thursday

8.30 a.m. - 3 p.m. Friday.

For EMERGENCIES outside office hours, compatriots can get in touch with someone of the Embassy in Wellington by ringing either Nr. 764 764 or 899 385.

The Embassy would like to take this opportunity to remind compatriots to apply for the renewal or issuance of Swiss passports as early as possible, thus avoiding unforeseen delays in their travel plans. Even if the applicant is registered, it can happen that the Embassy is obliged to clarify certain particulars by approaching the respective authorities in Switzerland.

Compatriots are also advised to notify the Embassy on the following:

- Change of address or phone number.
- Final departure from the consular district
- Changes of civil status (births, marriage, divorce, deaths etc.).

ANNUAL PICNIC - 22 February, 1981

The highlight of this year's picnic was not just a picnic, but a genuine Maori Hangi which tasted absolutely superb.

Daybreak saw our Maori chief and his helpers already up and heading towards Kaukapakapa. At seven o'clock the fire was going and at nine, the Hangi was buried into the ground. By the time it was ready to eat, scores of people had arrived and watched the Hangi getting 'unearthed'. The service was efficient and soon each one of the nearly 200 people had his plate filled. Even those who had tried Hangi before agreed this was the best one they'd ever tasted.

It was a relaxed and cheerful atmosphere up at the Farm and the weather was on our side too. The Jodlers delighted us with a couple of songs, some alphorn sounds came across the valley and Marlies & Ursula played their accordians in spite of the heat. Competitions were going in Kegeln and air-rifle shooting as well as children's competitions. The lucky EZIO-cup winner was Arthur Lussy.

Many thanks to all those who contributed to the success of this day, especially to our first class Maori chief cook and his helpers.

CHRISTCHURCH SWISS CLUB

A group of some 45 members and friends gathered in the Sydenham Community Centre in Hutchinson Street on Sunday evening, March 1st, to see two films of Switzerland. Mrs. Margret Rickenmann, who is at present in New Zealand on holiday, kindly brought the films to show at our meeting. One illustrated the industry and transport of Switzerland and the second showed beautiful scenes from the 25 cantons of Switzerland with local dialects on the soundtrack. The pleasant evening ended

coffee and a light supper.

TARANAKI SWISS CLUB

A huge crowd of members and friends assembled at Te Ngutu Park for the Annual Picnic in February. The day was very hot so refreshment booths were popular, as was one selling Swiss Saveloys. Swiss cakes and Coffeeschnapps proved most successful.

The President Mr Len Chamberlain welcomed all present and wished everybody a happy day. He then introduced Miss Maria Hardegger a local Swiss girl who had recently won the Miss Brookland contest. A charming lovely girl Taranaki can be proud of.

Mr Walter Risi from Hamilton also spoke and wished the club best wishes for the future.

INTERNATIONAL EXHIBITION OF INVENTIONS IN GENEVA

The 9th Exhibition of Inventions and New Technics was held in Geneva from 28th November to 7th December 1980. Over one thousand new inventions were shown by some 500 exhibitors from 28 countries. Once again, protection of the environment, safety and energy saving were the star features, but a great many researchers also presented new inventions in the fields of health, hygiene, articles for the handicapped, sport and leisure.

The first ever participation of the USSR Chamber of Commerce and Industry at this exhibition was a great innovation. France, with nearly 150 exhibitors, was once again the country with the largest number of representatives, while countries like Australia, and the Republic of Korea had doubled their stand area. Official organisations like the World Intellectual Property Organisation (WIPO), the European Patents Office, the Swiss Federal Office for Intellectual Property and the French National Institute for Industrial Property, each had information stands or

showed inventions selected by them on a national or a regional basis.

Among the Swiss inventions attracting our attention were a system for removing the ice from motorways and airport runways, a revolutionary bicycle without spokes or driving chain, a window pane providing insulation against the cold and noise, which saves up to 25% of fuel, and can be fitted on old windows without the need for transformations.

The Grand Prix of the Inventions Exhibition was awarded to a Frenchman who had invented an automatic chain for the continuous cutting up and evisceration of pigs, without any manual intervention. Fifteen other prizes were awarded at a ceremony attended by many leading personalities. (SODT).

NEW PROBE FOR MEASURING MOISTURE IN DEPTH

During the construction of new premises, transformation work or renovations, it is vital for the painter, the plasterer and the flooring specialist to be able to measure exactly the moisture content of the materials to be worked on, which have to be sufficiently dry for the work in hand. H.T. Hauenstein Co. Ltd. has developed a special accessory, for use with FMG 101 and FMG 102 hygrometers, called a 'Fitron-TMS 101/102' for measuring the moisture of building materials to a depth of 120 mm.
