The Fund on the subject of Savings:

Better with no risk and an attractive return at that.

If you consider total security important for your savings, the Fund has exactly the scheme you want. A savings account in hard Swiss francs, supervised by the Federal Finance Administration, with no withholding tax on the interest. And at a rate which you yourself can influence.

By protecting yourself with the Fund against loss of livelihood, only a small part of your contributions is used to cover this compensation risk.

All the rest is credited to your personal account and becomes savings capital.

You yourself may decide whether a higher lump-sum compensation or a higher interest rate is more important to you.

And the method of payment may also be tailored to your personal circumstances: it can be in the form of a single savings deposit (from Sfr. 450.- up) or of regular payments (starting at Sfr. 25.- a year). And these are by no means all the advantages which you can draw from the Fund. We would be happy to inform you about the active and dormant health insurance schemes for first-class medical care in Switzerland.
