Soliswiss insurance plans for every situation

For many Swiss Abroad, a long-term security plan is an important consideration. Not every country is able to offer suitable insurance arrangements. Soliswiss, the Solidarity Fund for Swiss Abroad, offers members four insurance plans that address their individual needs and automatically include protection against loss of livelihood.

Swiss Abroad often have no possibility of making adequate provisions for their future and that of their families. Since 1998 Soliswiss has addressed this need by offering four new insurance packages specially designed to meet the needs of Swiss Abroad. This range of products, comprising four different long-term security plans, is offered in conjunction with Winterthur.

Soliswiss PENSION

Soliswiss PENSION enables Swiss Abroad to protect themselves against financial problems in their old age. This flexible retirement provision plan allows members to specify in advance the pension they wish to be paid

and the frequency of payment (annually, biannually or quarterly). In the event of death the invested capital is paid to the heirs after deduction of income already paid out.

The pension plan can be financed in three different ways:

- a) The insured person pays a single premium on commencing retirement.
- b) The capital is gradually accrued through regular annual contributions.
- c) The capital is invested as a single premium well before retirement.

Soliswiss EDUCATION

Soliswiss EDUCATION is an insurance plan that allows

parents to make provisions for their children's education. Members determine at the outset the date on which the insured capital will be required (e.g. when higher education is expected to commence), and the plan is financed by annual contributions. Should the premium payer die before the policy matures, the children's education is not endangered. The capital is still paid out at the appointed time, but the heirs are released from further premium payments.

Soliswiss FUTURE

This insurance plan is designed for Swiss Abroad

who have specific plans for the future. For example, anyone intending to build a house or set up a business at some point in the future should take a good look at this plan. The financing and capital payment conditions are the same as for Soliswiss EDUCATION.

Soliswiss FAMILY

This insurance plan is for Soliswiss members wishing to accumulate capital for a future project (for instance a world tour) or for retirement (see also Soliswiss PENSION). The advantage of Soliswiss FAMILY is that in the event of the insured person's death, the capital, including bonus, is immediately paid out to the next of kin. This protects family members against any financial difficulties caused by the insured member's death.

By taking out a long-term security plan with Soliswiss, members are automatically insured against loss of livelihood. All premiums can be paid in Swiss francs, US dollars or euros. For further details, please contact:
