A black and white photograph capturing a candid moment in an airport terminal. The scene is divided by vertical structural columns. In the foreground on the right, a woman with dark hair and sunglasses perched on her head leans over a metal stroller, her gaze fixed on a young girl with blonde hair wearing a striped shirt. The girl is holding a small object. To the left, a young boy with dark hair sits on a dark bench, engrossed in reading a comic book. Behind him, another boy sits on the same bench, holding a large stuffed panda. In the center background, a man with a beard and glasses, wearing a vest over a light shirt, stands and reads a small book or brochure. To his right, a woman in a patterned shirt and cap is seen in profile, talking on a mobile phone. Further back on the right, another woman in a striped shirt is also on a mobile phone. The background features airport-style information boards and a payphone. In the bottom left corner, a sign is partially visible with the text 'ZUR AIRPORT' and 'FREE SHOPS'. The overall atmosphere is one of busy, everyday travel.

And the TelcaStar specialists from Ascom Autelca will also be glad to go to the airport if you'd like to hear more about the ultramodern remote maintenance and management system TelcaStar MEMO and the equally modern public payphones TelcaStar COIN, TelcaStar CARD, TelcaStar DUET and TelcaStar DESK. You'll also learn how easy it is to move information with TelcaStar: with your MEMO System you can instantaneously access data such as the number of calls made, turnover and daily earnings.
