Balance Sheet

In 1982, a year which witnessed the development of two new operations — in Poland and Lebanon — the balance sheet total increased by 15 per cent, rising from 52.4 million Swiss francs at the end of 1981 to 60.1 million at the end of 1982. This was due to a number of changes mainly in ICRC operations in various parts of the world.

It should be noted particularly that the sum of "Funds for operations with special financing" which did not greatly differ from that for 1981, included an unusually high proportion of contributions pledged (11.3 million) in December 1982, but not paid until early in 1983. Consequently, total funds actually available on 1 January 1983 for specially financed operations amounted to only 12.5 million.

The cash situation at the end of 1982 was, therefore, somewhat tight for the ICRC's specially financed operations, which all together were estimated to cost some 180 million Swiss francs in 1983.

It will be observed that promises of contributions amounting to 11.3 million are to be found among "Assets" under the item "Accruals". Thus, while "Cash" and "Other current assets" have remained at practically the same level as in 1981 (43.1 million in 1982 compared with 42.8 million in 1981), their composition has changed, the item "Investments" having fallen from 19.3 million in 1981 to 7.6 million in 1982, with a corresponding increase in Accruals.

The substantial increase in the item "Operations with temporary deficit in financing" is due to the difficulties in obtaining funds for the ICRC action in Iran and Iraq. The ICRC was obliged under the Geneva Conventions to continue these operations, which had already shown a deficit of 772,337 Swiss francs at the end of 1981. Despite unceasing efforts to obtain the funds required, the deficit continued to mount until it reached the sum of 5,998,000 Swiss francs at the end of 1982. Taking into account the temporary deficit in the joint ICRC-League Poland action, the advances to operations lacking adequate financing rose from 0.9 million at the end of 1981 to 6.6 million Swiss francs at the end of 1982.

This situation made it necessary to adjust the amount set aside as "provision for operational risks", which was increased from 2 to 4.7 million. At the same time, of course, new steps were taken to lift those actions out of the red. Changes in the amounts set aside for other provisions were also made, in view of the growth in the ICRC's structure and taking into consideration the construction work in progress to provide space for its increasing personnel.

During the year, short-term liabilities increased by 5.3 million, resulting mainly from the expansion in the volume of operations. The increase in "accrued liabilities" takes account of financial contributions which were received at the end of 1982 for National Red Cross Societies engaged in operations

with the ICRC, but which could not be transferred to them before the beginning of 1983.

The increase in the item "Funds in trust" is made up of the balance of the funds entrusted to the ICRC, to be transmitted to those governments which had undertaken to organize the evacuation of Palestinian combatants from Beirut.

Income and expenditure

The result shown in the Income and Expenditure Account was satisfactory, considering that the expected deficit in the 1982 budget had been estimated at nearly 2 million Swiss francs. Actual expenditure during the year was 3 per cent less than the budget estimates, while actual income came to 49.4 million, or 13 per cent more than predicted.

Receipts were 18 per cent more than in 1981, thanks to larger contributions paid by some governments and National Societies. Another factor which favourably influenced the result was the rise in the price of the dollar against the Swiss franc, the original estimates having been made in Swiss francs. On the other hand, revenue from investments was down by 24 per cent compared to 1981, falling from 2.5 million to 1.9 million Swiss francs. This diminution was caused by a fall in rates of interest, combined with a smaller volume of investments, part of the ICRC's capital having been utilized for the Iran-Iraq operation.

The result made it possible to allocate 2.8 million to various provision funds to meet the cost of new buildings needed by the ICRC. This amount was in addition to the 2.7 million Swiss francs referred to above, set aside for provision for operational risks.

Financing

GOVERNMENTS. — Despite Resolution XVII adopted by the Twenty-fourth International Red Cross Conference, asking all governments to take part in the financing of the ICRC, less than half of the States Parties to the Geneva Conventions paid contributions in 1982. This situation, which may be attributed only in part to worldwide economic difficulties, cannot be considered as normal.

It should be mentioned, however, that the total regular income received in 1982 by the ICRC was greater than in 1981: 39.7 million Swiss francs as compared with 33.3 million. This encouraging result was obtained by the pursuit of negotiations with a number of governments and by numerous fund-raising missions carried out during the year. Among those countries which made substantial increases in their contributions in

1982, mention should be made of Switzerland, Italy, Japan, France, the Federal Republic of Germany, the United States and Sweden.

NATIONAL SOCIETIES. — Contributions from National Societies dropped slightly (2.5 million Swiss francs in 1982, as against 2.6 million in 1981), a fall which may be explained by the introduction of a new system for the calculation of contributions, based on Resolution XVIII adopted by the last International Conference. Of the 130 recognized National Societies, 68 took part in financing the ICRC.

Comprehensive total of expenses

A comprehensive view of the full extent of the ICRC's activities can be perceived only by adding to the expenditure recorded in the ordinary accounts the cash spent on specially financed operations, the expenditure under "Funds for Relief Operations" (in Table VIII), and the estimated value of gifts in kind and of services received by the ICRC in response to its appeals. The addition is as follows:

	in millions of Swiss francs
— Expenditure recorded in ordinary accounts . . .	44.4
— Cash spent on specially financed operations . . .	121.6
— Expenses financed by the "Fund for Relief Operations"	1.5
— Estimated value of gifts in kind and of services utilized by the ICRC for its operations ¹	59.6
	227.1

Audits

As in the two previous years, the accounts have been audited by the Société Fiduciaire Suisse (Swiss Auditing and Fiduciary Company). A photocopy of the Company's letter recommending that the Balance Sheet and Accounts for 1982 be approved by the International Committee will be found on page 125.

¹ Not including 92 million Swiss francs in goods and services provided for Poland in the action jointly undertaken by the ICRC and the League of Red Cross Societies.

Swiss Auditing and Fiduciary Company

SOCIÉTÉ FIDUCIAIRE SUISSE

FOUNDED IN 1906

1211 GENEVA 3 · 40, RUE DU MARCHÉ · P. O. BOX 391 · TEL. (022) 28 53 11 · CABLE FIDUSUISSE · TELEX 23243

Statutory auditors' report
to the Assembly of the

INTERNATIONAL COMMITTEE OF THE RED CROSS, GENEVA

Ladies and Gentlemen,

As statutory auditors of your Institution, we have examined the accounts for the year ended December 31, 1982.

We have come to the conclusion that

- the balance sheet and the statement of income are in agreement with the accounting records,
- the accounting records have been properly kept,
- the balance sheet totalling Sw.Fr. 60.073.793,00 and the annual statement of income showing, after taking account of various complementary charges of which Sw.Fr. 2.358.822,00 have been directly booked to the debit of various receipt accounts, an excess of income over expenditure in the amount of Sw.Fr. 15.730,00, present fairly the financial position as at December 31, 1982 and the result of operations for the year then ended.

The deficit surplus as at December 31, 1982 on the financing of actions under course in Irak/Iran and Poland has been provisionally accounted as a deferred expense in the balance sheet for a total of Sw.Fr. 6.658.811. In case the final outcome of the appeal made in the present financial year would not allow to cover fully or partially the deficit recorded, this will come directly in deduction of provisions available or, if necessary, of net equity funds.

Based upon our examination, we recommend that the accounts submitted to you be approved.

Geneva; April 29, 1983

SWISS AUDITING AND FIDUCIARY COMPANY

Henri DAVIER

Frank LILLEY

REPORT OF THE BOARD OF DIRECTORS

James H. [Signature]

RESOLUTIONS OF THE BOARD OF DIRECTORS
APPROVED AND ADOPTED BY THE BOARD OF DIRECTORS
ON THIS 15th DAY OF [Month] 19[Year]

Respectfully,
[Signature]

As a result of the audit of the financial statements of the Company for the year ended December 31, 19[Year],

we have concluded that the financial statements

presented to the Board of Directors are in accordance with the accounting principles generally accepted in the United States of America.

The accompanying notes are an integral part of these financial statements.

The balance sheet reflects the Company's financial position at the end of the year. The income statement shows the Company's performance during the year. The cash flow statement provides information about the Company's cash and cash equivalents. The financial statements are prepared in accordance with the accounting principles generally accepted in the United States of America.

The financial statements are prepared in accordance with the accounting principles generally accepted in the United States of America. The financial statements are prepared in accordance with the accounting principles generally accepted in the United States of America.

These financial statements are prepared in accordance with the accounting principles generally accepted in the United States of America.

Respectfully,
