Annual compilation (1986) of Hydradephaga (Coleoptera) papers

by M. Brancucci & K. Dettner

Abstract: The authors give a list of additional papers for 1984, 1985 and the 170 papers published during 1986 on all aspects of Hydradephaga (Coleoptera: Trachypachidae, Coptoclavidae, Necronectidae, Parahygrobiidae, Hygrobiidae, Amphizoidae, Haliplidae, Noteridae, Dytiscidae and Gyrinidae).

Key words: Hydradephaga – 1986 – compilation.

The present compilation of Hydradephaga papers covering the year 1986 now includes 190 references from 194 authors.

The difficulties to achieve a complete annual list are amply illustrated by the additional references for 1984 (4) and 1985 (20) and underscore the necessity of collaboration between Hydradephagan workers. Therefore we are greatly indebted to all colleagues for their active help in adding, correcting and controlling the references cited. If our compilations should have stimulated colleagues working with polyphagous water beetles to produce appropriate lists we would be glad.

As in the previous compilation, only papers published in 1986 have been included. Those publications recorded for 1986 but actually published and issued in 1987 will be included in the 1987 compilation. Thus, if the name of an author is followed by two dates, the first refers to the year in which the publication was recorded, the second (in brackets) to the actual year of publication. Papers are quoted by their original titles apart from non-roman alphabetical publications where we furnished an English translation and indicate the original language within square brackets, e.g. Japanese [Ja], Russian [Ru], etc.

Additional papers 1984

- HARADA, E. (1984): *Benthos*. In: *Lake Biwa* (HORIE, S., ed.). Dr. W. Junk Publ., Dordrecht. pp. 323–330.
- HENDRICH, L. & BALKE, M. (1984): *Bemerkenswerte Schwimmkäferfunde in Berlin (Coleoptera: Dytiscidae)*. Berl. Naturschutzbl. 28(2): 76–77.
