ORGANIZATION

The members of the Programme Committee are Daniel CORAY (Switzerland), Fulvia FURINGHETTI (Italy), H el ene GISPERT (France), Bernard R. HODGSON (Canada) and Gert SCHUBRING (Germany).

The philosophy of discussions and personal exchanges underlying this symposium imposes a limitation on the number of participants. People interested in the symposium are thus requested to contact the Local Organizing Committee at the address below as soon as possible, **preferably prior to August 31**. Participants are expected to stay for the three days of the meeting. There will be no registration fee, but very little financial support is available. Hence foreign participants are expected to cover their travel and local expenses by themselves or through their home institution.

The main language of the Symposium is English. However, taking into account both the tradition dating back to the beginnings of *L'Enseignement Math ematique* and the fact that the meeting takes place in Geneva, some participants may choose to use French, keeping in mind that this might restrict communication with part of the audience.

The Symposium Proceedings will be published under the responsibility of the Editorial Board of the *Monographies de l'Enseignement Math ematique*, in collaboration with the Programme Committee.
