Nutzungsbedingungen

Die ETH-Bibliothek ist die Anbieterin der digitalisierten Zeitschriften auf E-Periodica. Sie besitzt keine Urheberrechte an den Zeitschriften und ist nicht verantwortlich für deren Inhalte. Die Rechte liegen in der Regel bei den Herausgebern beziehungsweise den externen Rechteinhabern. Das Veröffentlichen von Bildern in Print- und Online-Publikationen sowie auf Social Media-Kanälen oder Webseiten ist nur mit vorheriger Genehmigung der Rechteinhaber erlaubt. [Mehr erfahren](#)

Conditions d'utilisation

L'ETH Library est le fournisseur des revues numérisées. Elle ne détient aucun droit d'auteur sur les revues et n'est pas responsable de leur contenu. En règle générale, les droits sont détenus par les éditeurs ou les détenteurs de droits externes. La reproduction d'images dans des publications imprimées ou en ligne ainsi que sur des canaux de médias sociaux ou des sites web n'est autorisée qu'avec l'accord préalable des détenteurs des droits. [En savoir plus](#)

Terms of use

The ETH Library is the provider of the digitised journals. It does not own any copyrights to the journals and is not responsible for their content. The rights usually lie with the publishers or the external rights holders. Publishing images in print and online publications, as well as on social media channels or websites, is only permitted with the prior consent of the rights holders. [Find out more](#)

Instructions for Authors

Submission of Manuscripts

Authors must submit their papers electronically in PDF format, according to the instructions below, to the following address: EnsMath@unige.ch.

Papers to be considered for publication must be written in English or French. German and Italian are also accepted.

The following information is required with the submission:

- Name of author(s) together with email address(es)
- Complete mailing address(es)
- Name of the corresponding author
- 2020 Mathematics Subject Classification representing the subjects of the article
- Keywords describing the subject matter of the article
- Authors may indicate which Editor is closest to the subject of the paper.

Submission of a manuscript implies that the work described has not been published before and that it is not under consideration for publication elsewhere.

Format of Manuscript

The journal strongly encourages authors to make available LaTeX files for typesetting purposes. Upon final acceptance of your paper you will be asked to e-mail all source files and macros, together with postscript or pdf files, to EnsMath@unige.ch. Authors are advised to create their LaTeX files in 'article' format with \textwidth=125mm and \textheight=195mm or by using the macros available on our websites.

The title page should include the name, affiliation and address (together with e-mail address) of each author and a short abstract in English. The author to whom proofs should be sent should be marked as the corresponding author.

To avoid distortion from rescaling, figures must not be wider than 125 mm. They should be sent as EPS files (encapsulated PostScript), or as fair copy on paper, suitable for direct photographic reproduction without major reduction.

All figures, tables, etc. should be numbered, with the insertion place clearly indicated.

References should be listed alphabetically at the end of the paper. All references in the bibliography should be cited at least once in the text. The following examples show the preferred house style for references to a book, a paper in a proceedings volume, a paper in a journal, and an unpublished dissertation:

- [1] S. Baader, *Geometry and Topology of Surfaces*. EMS Press, Berlin 2021.
- [2] R. V. Kadison, Operator algebras – the first forty years. In *Operator Algebras and Applications*, Part 1 (Kingston, Ont., 1980), Proc. Sympos. Pure Math. 38, Amer. Math. Soc., Providence, RI, 1982, 1–18.
- [3] F. J. Murray and J. von Neumann, On rings of operators. *Ann. of Math. (2)* **37** (1936), 116–229.
- [4] T. Timmermann, Pseudo-multiplicative unitaries and pseudo-Kac systems on C^* -modules. Ph.D. thesis, Münster 2005.

EMS Code of Practice

This journal adheres to the EMS Code of Practice; see <https://euromathsoc.org/code-of-practice>.

L'ENSEIGNEMENT MATHÉMATIQUE

2^e Série / Tome 66 / Fasc. 3–4 / Juillet–Décembre 2020

Contents

- 259 C. BURRIN, A. NEVO, R. RÜHR AND B. WEISS
Effective counting for discrete lattice orbits in the plane via Eisenstein series
- 305 A. POHL AND D. ZAGIER
Dynamics of geodesics, and Maass cusp forms
- 341 M. DUSSAULE, I. GEKHTMAN, V. GERASIMOV AND L. POTYAGAILO
The Martin boundary of relatively hyperbolic groups with virtually abelian parabolic subgroups
- 383 P. LESSA AND E. GARCÍA
On the discreteness of states accessible via right-angled paths in hyperbolic space
- 409 M. TRIESTINO
On James Hyde's example of non-orderable subgroup of $\text{Homeo}(D, \partial D)$
- 419 V. ERLANDSSON, J. SOUTO AND J. TAO
Genericity of pseudo-Anosov mapping classes, when seen as mapping classes
- 441 M. HAULMARK, G. C. HRUSKA AND B. SATHAYE
A relative Sierpinski theorem: Erratum to "Nonhyperbolic Coxeter groups with Menger boundary"
- 447 J.-L. COLLIOT-THÉLÈNE
Zéro-cycles sur les surfaces de del Pezzo (Variations sur un thème de Daniel Coray)
- 489 J. WOLFSON
Tschirnhaus transformations after Hilbert
- 541 S. ALLEN AND C. LIVINGSTON
Unknotting with a single twist
- 591 C.I.E.M.
Historical vignettes from the Archives of ICMI
