NEWS FROM SWITZERLAND

BIG FOREIGN ORDER PLACED IN SWITZERLAND

The National Union of Sugar Producers in Mexico has entrusted the Swiss engineering firm of Buhler Bros. with the installation of a large plant for storing raw sugar and loading it on ships. The project includes the construction of a hangar in the port of Vera Cruz, big enough to hold 40,000 tons of raw sugar, as well as the necessary wharves for loading ships. The sugar is unloaded from railway cars and trucks at the rate of 400 tons an hour, while loading into ships is scheduled to take place at a rate of 800 tons an hour.

In addition to the main plant, the Swiss firm will supply 17 conveyor belts of a total length of 2800 feet and a capacity of 400 to 800 tons an hour; six conveyor belts of a total length of 1310 feet and a capacity of 400 tons an hour each and one travelling loader with a mobile outrigger and a trimmer with telescopic tube for capacities up to 800 tons an hour; a second loading tower is to be supplied later. The new plant will be put into operation this year; it is the third to be ordered in Latin America from the same Swiss engineering firm. (OSEC).
