## Swiss Firms Win Tender to Build Glassworks In Iran

Two Swiss firms, Electrowatt Engineering Consultants Co. Ltd. (Zurich—Switzerland) in a general capacity, and Vetropack Co. Ltd. at Bulach (Zurich—Switzerland) to provide the knowhow, have been commissioned by the Iranian "Industrial Credit Bank" to build a glass bottle factory at Hamada, about 150 miles from Teheran. This order, won by the two Swiss firms in the face of keen international competition, comprises not only the actual construction of the factory, but also the training of the local management staff and technical personnel as well as long-term counselling in the field of glass technology. (SODT)

## Foreign Awards for Swiss Medical and Scientific Films

The pharmaceutical firm of Sandoz (Basle) has been awarded two gold "Anne" medals with the effigy of Queen Anne of Brittany.

These medals were awarded to the firm by the jury of the Fifth International Medical Film Festival, at Nantes (France).

One of this firm's two prize-winning scientific films is devoted to the diagnosis of autism in infancy and was described as the best didactic film in the infant psychiatry category, while the other, entitled "Drepanocytose", deals with genetic medicine.
