kissed good-bye to democracy not only for their own lifetime, but most likely for several generations to come.

Stage V: No doubt, the first results of MMP do not satisfy everyone. But do not forget, this is New Zealand's first stab at democracy. It will need time to settle down. With this first experience behind us, the next elections will most likely be more straight forward and probably less of a surprise.

Although the road to true democracy is a long and winding one, we are at least on it now and proceeding in the right direction. The next step may now be to argue for the introduction of binding referenda, similar to the way we have them in Switzerland. This may well prove to be an even harder nut to crack than getting rid of the old "First Past the Post" form of government.

FIRST QUALITY CHOCOLATE FACTORY FOR MOSCOW.

Red October chocolate factory in Moscow.

Moscow's Red October company has ordered a large chocolate factory from the Swiss company Buhler, a contract worth 29 million SFR. Most factory components will be manufactured at Buhler's Swiss headquarters in Uzwil (SG) and the remainder in one of their subsidiaries in Germany.

The factory is due to be commissioned at the end of 1998.

The factory units supplied by Buhler will include three computerised production lines, raw materials reception infrastructure, mixer food units, refiner

units, installations for enrichment of the chocolate (conche), air conditioning equipment and hot and cold water systems. The factory will produce both milk chocolate and dark chocolate, filler paste for pralinés and paste for coatings. This state-of-the-art chocolate factory will have a production capacity of 9 tons per hour.

The Moscow factory is the fourth large installation to be built by Buhler for Russian clients and will serve as an excellent international reference for Switzerland's chocolate industry.

This President surely needs no introduction. Who would never have heard of him. Rodolphe RUBATTEL 1954.

His name became famous for his law which promoted the mixing of red and white wine to get rid of millions of litres of surplus wine. This mixture of red and white wine was quickly nicknamed: "Rubatteller". In the German part of Switzerland, Rodolphe Rubattel became known as the "Weinpanscher".

He is not very much liked by the anti-smokers because he produces the famous Swiss Villiger cigars.

No doubt shrewd readers will already have noticed that no Presidents are mentioned for the years 1953, 1974 and 1975. What happened during those years? Was no Federal Councillor prepared to stand for President? Honestly we do not know. Perhaps our friends at the Swiss Embassy in Wellington can throw some light onto this puzzling matter.
