FEBRUARY 2004

HELVETIA

Do you know the name of this mountain?

Thanks to its position on the edge of the Alps, this peak offers a unique panorama. It is part of the Alpstein range and is easily accessible from Appenzell, Urnasch and Toggenburg by train and post bus. An aerial cableway goes from Schwagalp to the mountain summit where there is also a Swiss meteorological station. Several mountain lakes enhance the charm of the pre-alpine landscape. The ??? towers above Appenzell and Toggenburg with their homy villages and typical artistically-painted houses. Many traditional customs live on among the inhabitants of the region.

The winner of this competition will receive a \$10 voucher, and will be announced in the following issue of HELVETIA. If there are a number of correct answers there will be a draw. The judges decision is final and no correspondence will be entered into.

Please send your answers printed clearly together with your name and address on the back of an envelope to: HELVETIA competition, Silvia Schuler, Skinner Rd, Rd 23, Stratford, by the 15th of the month.
