Kite Sailing School Silvaplana

Lake Silvaplana is the national mecca for wind and kite surfers. And rightly so. The reliable Maloja wind means that surfing conditions in the Upper Engadin are almost always ideal. A fact that world-record champion and surfing legend Björn Dunkerbeck noted and which led him to make his home in Silvaplana. In addition to the wind, the nature present in the Engadin is exceptional. The facilities speak in favour of Silvaplana as a surf spot, camping site, kiting school, Mulets Sport Centre and a windsurfing centre all located nearby. A variety of events take place every summer at the Silvaplana surf centre. Those preferring a more leisurely atmosphere head for "The Beach" in Sils on the other side of the lake. There is also the scene of hot beach parties every summer. Those seeking seclusion will find it on the extensive but gusty Lake Silser. However, an "exclusive" ambiance can be found champagne surfing on the Lake of St. Moritz.

TOPIC PATH HIKE TAKING IN THE RICOLA HERB GARDEN

The Ricola Herb Garden is situated in Europe's most beautiful mountain valley, the Engadin.

From the center of Pontresina take a short walk towards the Roseg valley, and then into the Tais Forest. You are sure to notice this garden, with its circular beds marked by stones, at the entrance to the Val Roseg. The Ricola Herb Garden is home to the 13 herbs used to make the original blend for Ricola herb cough drops.

The little information panels tell you about sage, alchemilla, mallow, yarrow and many other herbs.

The company founder Emil Richterich first created the recipe in the summer of 1940 and it is still in use today. The trail continues along a gently sloping path into Tais Forest.

This is a family-friendly walk.

Olympia Bob Run - Adrenaline kick with tradition

The bob run St. Moritz - Celerina has been operating since 1904. This makes it the oldest bob run and also the last remaining natural ice bob run in the world. All the other bob runs in Europe, North America and Japan have to be frozen artificially, since they are located in climatically less favourable altitudes.

In the 1930s, the first guests rode on the Olympia Bob Run from St. Moritz to Celerina in the open Feierabend sleds, but today the bobsleigh sport has changed very much. However the fascination remains and the guest rides in today's slightly modified race 4-men sleds are very popular.

Yoga on snow

<http://cdn3.spiegel.de/images/image-573326-gallery-v9-uasg>

The world's first yoga piste is located on the Paradiso piste on Corviglia. There are four fixed points on the mountainside where Yoga on Snow can be practised either independently or under professional guidance. The exercises focus on consciously slowing down and achieving a different, calmer skiing rhythm. The aim is that participants should experience the sport of skiing in a more intense manner.
