Bibliographie für Versicherungsmathematik und Statistik

Regeln für die Aufnahme von Abhandlungen

a) Versicherungsmathematische, -technische, -statistische sowie mathematisch-statistische Abhandlungen werden ohne Einschränkung aufgeführt.

b) Versicherungswirtschaftliche Abhandlungen werden aufgenommen, sofern sie in einer für die Bibliographie ohnehin vorgesehenen Zeitschrift erschienen sind.

c) Mathematische Abhandlungen werden verzeichnet, sobald ein Zusammenhang mit Versicherungsmathematik oder mathematischer Statistik offensichtlich ist.

d) Statistische Arbeiten rein beschreibender Art fallen ausser Betracht, sofern sie nicht Erkenntnisse vermitteln, welche für die Versicherung bedeutungsvoll sind.

Den Bearbeitern der Bibliographie standen diesmal nahezu alle Zeitschriften im Original zur Verfügung; nur für ganz wenige, amerikanische Veröffentlichungen musste auf andere Bibliographien abgestellt werden. Im übrigen ist im Bedarfsfall auf die folgenden Bibliographien zu verweisen:

- a) Schweizerische Zeitschrift für Volkswirtschaft und Statistik.
- b) Revue de l'Institut International de Statistique.
- c) Mathematical Reviews.
- d) Journal of the American Statistical Association.
