### Mitteilungen der Vereinigung schweizerischer Versicherungsmathematiker

Band 60, 1960

- Ammeter, Hans*: Le problème de la ruine dans la couverture des excédents de sinistres. S. 21–36.
- Burckhardt, Hans*: Über die Dauer von Krankheiten, die zum Tode führen. S. 37–43.
- Christen, H.*: Aus der Sachschadenversicherung: Die Einflüsse von Ersatzwert und Restwert auf die Höhe der Entschädigung, wenn Unterversicherung vorliegt. S. 45–48.
- Chuard, Philippe*: Le calcul, par ajournement, des primes pour rentes différées. S. 49–68.
- Féraud, Lucien*: Sur les fondements de l'actuariat et plus généralement des applications des probabilités. S. 69–99.
- Frischknecht, M.*: Approximative Reservenberechnung mit Hilfe der linearen Programmierung. S. 101–113.
- Muller, Maurice*: Pascal: Les mathématiques, les probabilités et le pari. S. 115–129.
- Urech, Auguste*: La correspondance prospective-rétrospective et les méthodes de calcul par groupes des réserves mathématiques. S. 131–149.
- Hüsser, R. und Wegmüller, W.*: Einsatz elektronischer Rechenautomaten für die Ausgleichung mit orthogonalen Polynomen. S. 151–169.
- Wyss, Hans*: Kriterien für die Solvabilität einer Lebensversicherungsgesellschaft? S. 171–186.
- Thullen, Peter*: Über die Eintritts- und Abnahmeintensitäten einer Bevölkerung und über das Verhalten der Bevölkerungsfunktion, insbesondere relativ stationärer Bevölkerungen. S. 187–200.
- Sumitsuji, Osamu*: Some elementary researches in the mathematics of life insurance (II). S. 201–213.
- Chuard, Jules*: Sur le rendement des obligations amortissables par annuités constantes. S. 215–228.
- Jecklin, H.*: Renditenbestimmung mittels hyperbolischer Interpolation. S. 229–238.
- Iff, Paul*: Zur Darstellung versicherungstechnischer Werte durch Reihen. S. 239–245.
- Romer, B.*: Das Haupttheorem der linearen Programmierung. S. 247–257.

- Nolfi, Padrot*: Zur Definition des Invaliditätsbegriffes. S. 259–268.
- Amsler, Marc-Henri*: Note relative au calcul numérique des tarifs d'assurance de groupe TG 1960 2½%. S. 269–273.
- Dubois, Philippe*: Introduction à la théorie de l'information. S. 275–292.
- Ammeter, Hans*: Der XVI. Internationale Kongress der Versicherungsmathematiker. S. 293–307.
- Baumgartner, Otto*: Die «Internationale Elektronische Woche der Versicherung» in Paris. S. 309–329.

**Internationale Zeitschrift für versicherungsmathematische und statistische Probleme der sozialen Sicherheit**

Nr. 4, 1959

- Myers, Robert J.*: Die fachlichen Ergebnisse der Zweiten Internationalen Konferenz der Versicherungsmathematiker und Statistiker der Sozialen Sicherheit. S. 119 bis 122.
- Emanuelli, Filippo*: Die Zweite Internationale Konferenz der Versicherungsmathematiker und Statistiker der Sozialen Sicherheit. S. 123–132.
- Wolff, Karl-Heinz*: Die Rentenversicherung in ihrer Abhängigkeit von der wirtschaftlichen und demographischen Entwicklung, unter besonderer Berücksichtigung der Veränderungen der Kaufkraft des Geldes und des Lohnniveaus. S. 137–163.
- Coppini, Mario Alberto*: Die Rentenversicherung in ihrer Abhängigkeit von der wirtschaftlichen und demographischen Entwicklung, unter besonderer Berücksichtigung der Veränderungen der Sterblichkeit und der Geburtenhäufigkeit. S. 169–188.
- Maddey, Sir George*: Die Rentenversicherung in ihrer Abhängigkeit von der wirtschaftlichen und demographischen Entwicklung, unter besonderer Berücksichtigung der Beziehungen zwischen dem Beginn der Berechtigung auf Altersrente, deren Betrag und der Aufgabe der Erwerbstätigkeit. S. 193–203.
- Lasheras-Sanz, Antonio*: Die finanzielle Organisation der Arbeitslosenversicherung, unter besonderer Berücksichtigung: a) der Anwendungsmöglichkeiten der Sozialversicherungstechnik auf die Deckung des Risikos der Arbeitslosigkeit; b) der Kriterien betreffend die Bildung von Reserven. S. 209–215.
- Féraud, Lucien*: Die Anwendung der Verfahrensforschung auf die Soziale Sicherheit, unter besonderer Berücksichtigung der Unfallversicherung und der Krankenversicherung. S. 223–237.
- Madeira, João Lyra*: Die Anwendung der Verfahrensforschung auf die Soziale Sicherheit, unter besonderer Berücksichtigung der Unfallversicherung und der Krankenversicherung. S. 245–213.

**Schweizerische Versicherungs-Zeitschrift**

28. Jahrgang, 1960/61

- Marchand, Émile*: L'importance de l'assurance privée sur le marché suisse des capitaux. S. 194–204.
- Braunschweiler, H.*: Grundsätzliches zum Problem der Kapitalanlagen der Lebensversicherer. S. 211–216.

- Schönenberger, H.*: Zu einigen Anlageproblemen des Rückversicherers. S. 216–225.  
*Lützel Schwab, W.*: Sachwertanlagen in der Lebensversicherung? S. 238–250.  
*Barthe, Louis*: Les prescriptions légales et la pratique du Bureau Fédéral relatives aux placements des compagnies d'assurances sur la vie. S. 250–259.  
*Nolfi, P.*: Maximen für die Aufstellung von Versicherungsbilanzen und für die Finanzierung von Personalversicherungen. S. 325–330 und 357–367.  
*Pardo-Vivero Lopez, A.*: Les «Obligations + Assurance» sont-elles des assurances mixtes à la prime unique? S. 330–336.

### **Schweizerische Zeitschrift für Sozialversicherung**

4. Jahrgang, 1960

- Huber, Hans*: Die rechtsstaatlichen Grundsätze im Sozialversicherungsrecht. S. 1–15.  
*Lüönd, Karl G.*: Die Freizügigkeit in der Personalversicherung. S. 31–45.  
*Wenk, Erwin*: Zur Statistik der schweizerischen Sozialversicherung. S. 46–50.  
*Granacher, Albert*: Werdendes Sozialversicherungsrecht des Bundes. S. 62–68.  
*Binswanger, Peter*: Ausbau der AHV, Möglichkeiten und Grenzen. S. 94–107.  
*Derron, Leonhard*: Die freiwillige Versicherung gemäss Kranken- und Unfallversicherungsgesetz. S. 108–116.  
*Achermann, Karl*: Der Arbeitgeber in der schweizerischen Sozialversicherung. S. 117–142.  
*Latscha, Robert*: Über die Prämienbemessung in der obligatorischen Unfallversicherung. S. 194–214.  
*Salathé, Albert K.*: Die Sozialversicherungsgesetzgebung des Bundes und der Kantone im Jahre 1959. S. 223–234.  
*Binswanger, Peter*: Die Bedeutung der AHV-ergänzenden Alters- und Hinterlassenenversorgung in der Schweiz. S. 255–266.  
*Wenk, Erwin*: Die schweizerische Sozialversicherung in Zahlen. S. 297–300.  
*Nonella, Ugo*: Die Entwicklung der sozialen Krankenversicherung in der Schweiz von 1949 bis 1958. S. 301–309.  
*Burckhardt, Lukas F.*: Das Problem des erhöhten Krankheitsrisikos der alten Leute in der amerikanischen Sozialversicherung. S. 310–317.

### **Bulletin de l'Association Royale des Actuaires Belges**

N° 60, 1960

- Franckx, Ed.*: La théorie du jury ou des décisions collectives. S. 19–31.  
*Lambert, H.*: Une application de la théorie collective du risque: la Réassurance. S. 33–47.  
*Thyrion, P.*: Note sur les distributions «par grappes». S. 49–66.  
*Frère, M.*: Une application des Tests de Kolmogoroff-Smirnoff. S. 67–85.

### **XVI. Internationaler Kongress der Versicherungsmathematiker 1960**

1. Band

- Härten, H.*: Zusatzversicherungen zu Lebensversicherungen in der Bundesrepublik Deutschland. S. 3–22.

- Aslet, K. C. and Wicken, J. W.*: Life assurance policies including a waiver of premiums benefit on incapacity. S. 23–43.
- Purchase, H. F.*: Disability benefits and life assurance. S. 44–58.
- White, R. E. and Sutton, R. L.*: Disability income and accident indemnity benefit in conjunction with life assurance policies. S. 59–76.
- Klein, W.*: Kombinierte Vertragsformen, ihre Fragen und Probleme in der österreichischen Lebensversicherung. S. 77–95.
- Campbell, J. A.*: Additional benefits in life policies in Canada. S. 96–111.
- Green, E. A.*: Initial and experience rating of combined coverage group policies. S. 112–125.
- Nesbitt, C. J. and Schuette, D. R.*: Premium and reserve components in case of additional benefits for a particular cause of death. S. 126–140.
- Winter, B. A.*: Claim cost experience of dependents covered by family and similar policies. S. 141–152.
- Kaila, E. K.*: Untersuchung über Rechnungsgrundlagen der Invaliditätszusatzversicherung in Finnland. S. 153–163.
- Longo, V. et Taccheo, C.*: Sull'assicurazione complementare infortuni e sulla frequenza delle morti accidentali in Italia. S. 164–189.
- Bjoraa, S. J.*: Disability insurance in Norway. Recent experience. S. 190–196.
- Moen, E. and Trier, G.*: Additional benefits in group pension insurance in Norway. S. 197–212.
- Barthe, L.*: L'assurance contre la maladie comme assurance complémentaire à l'assurance sur la vie. S. 212–217.
- Burckhardt, H.*: Erfahrungen mit der zusätzlichen Versicherung für Tod nach langer Krankheit. S. 218–227.
- Heubeck, G.*: Der Belastungsfaktor in Pensionsprogrammen mit geometrisch wachsendem Zugang. S. 231–238.
- Müller, N.*: Variation der Invalidisierungshäufigkeiten bei Bestandsentwicklungen offener Gesamtheiten. S. 239–251.
- Wünsche, G.*: Zur Finanzierung von Pensionsleistungen durch Umlage bei zeitlicher Variation der Ereigniswahrscheinlichkeiten. S. 252–270.
- Clarke, C. E.*: Some notes on financial estimates for British national insurance. S. 271–283.
- Consaël, R.*: Variations du niveau général des rémunérations et valeur réelle des prestations à long terme. S. 284–300.
- Myers, R. J.*: Actuarial analysis of pension plans under inflationary conditions. S. 301–315.
- Loisel, J.*: La compensation des variations des bases techniques des caisses de retraite par répartition. S. 316–337.
- Mazoué, L.*: Etude de l'influence du facteur mortalité sur l'équilibre financier d'un régime de retraite par répartition. S. 338–354.
- Netter, F.*: Les facteurs démographiques dans les divers régimes d'assurance de vieillesse fonctionnant en France sous le régime de répartition. S. 355–364.
- Coppini, M. A.*: La forme des prestations et les variations des primes dans les fonds de pensions. S. 365–385.

- Emanuelli, F.*: L'equilibrio di un fondo pensioni e le variazioni del livello generale dei salari. S. 386–396.

- Johnson, N. L. and Young, D. H.*: Some applications of two approximations to the multinomial distribution. S. 463–469.

- Ramasubban, T. A.*: Some distributions arising in the study of generalized differences. S. 469–473.
- Bardwell, George E.*: On certain characteristics of some discrete distributions. S. 473 bis 475.
- Linhart, H.*: Approximate tests for  $m$  rankings. S. 476–480.
- Kshirsagar, A. M.*: A note on the derivation of some exact multivariate tests. S. 480 bis 482.
- Gilbert, N.*: Estimation from a linear Markov process. S. 482–483.

### **Data Processing**

Vol. 2, 1960

- Recording data at the point of sale. S. 2–9.
- Spooner, P. A.*: The Norwich City Council computer. S. 10–19.
- Letter writing by numbers. S. 20–25.
- Gamma 60. S. 26–31.
- Punched paper tape. S. 32–41.
- Controlling continuous processes by computer. S. 42–47.
- Galambos, P.*: Two scientific-management techniques. S. 48–53.
- The KDP 10. S. 54–57.
- Mechanized accounting for the smaller office. S. 58–64.
- Automatic preparation of commercial documents. S. 66–73.
- Ordering, invoicing, stock control. S. 74–83.
- Electrostatic printing. S. 84–89.
- IBM computers. S. 90–101.
- Analysing business data. S. 102–109.
- Edge-punched card tabulator. S. 110–113.
- Orion. S. 114–121.
- From punched cards to computer. S. 122–128.
- Current accounts on a computer. S. 130–137.
- Kimball tags. S. 135–149.
- Collectadata. S. 150–155.
- Automatic banking. S. 156–169.
- Capturing commercial data at source. S. 170–175.
- Selective addressing. S. 176–182.
- Controlling city traffic by computer. S. 183.
- Reading machines. S. 184–185.
- Data processing topics. S. 186–187.
- Administration of group pension schemes by computer. S. 188–194.
- Preparing sales quotations promptly. S. 196–203.
- Electronic record-keeping. S. 204–207.
- Machine reading. S. 208–223.
- Thermoplastic recording. S. 224–229.

Automatically up-dating account records without a computer. S. 230–237.

*Spooner, P. A.*: Branch bank accounting. S. 238–245.

Data processing topics. S. 246–247.

I.C.T.'s new computer – the 1301. S. 248–253.

Management accounting by digital computer. S. 254–260.
