## INSTRUCTIONS TO AUTHORS

Send original and two copies to the editor; Dr. J. J. Schneller, Institut für systematische Botanik, Zollikerstrasse 107, CH-8008 Zürich, Switzerland.

### GENERAL INFORMATION

**Scope of the journal:** Ecology, experimental mycology, mycological genetics, medical mycology and mycotoxins, monographs, morphology, cytology, plectology, classical and computer assisted taxonomy, systematics, nomenclature. Priority is given to papers dealing with Basidiomycetes and Ascomycetes. Book reviews are welcome.

**Reviews:** Papers are submitted to one or two reviewers. Acceptance depends on the reviewers comments. Manuscripts must not be submitted to other journals at any time.

**Languages:** Contributions may be written in English, French, German or Italian. **Abstracts** are required in two languages, preferably in English and in one of the other admitted languages. The abstracts should not exceed 500 words and are required for all papers exceeding 3 pages of text. Every abstract should be written in an informative style. Give essential details of techniques or research findings. Avoid generalizations and statements with low information content, like "... are reported", "... have been given", etc.

**Use of scientific names** must follow the latest edition of the International Code of Botanical Nomenclature. Do not cite authors in titles or in abstracts.

### PREPARATION OF MANUSCRIPTS

**Papers may be submitted either as a type written manuscript on paper, or as an electronic text file on a diskette.** The manuscripts will be formatted by our staff according to the current standard of Mycologia Helvetica, using a desk top publishing programme on a personal computer. Typed manuscripts will be scanned electronically for input prior to formatting. Since all manuscripts will be formatted electronically, a few special instructions are in order: Do not underline; italics and bold face letters may be used; use tabulations instead of spaces for the preparation of columns in tables. All type written manuscripts submitted on paper must be neatly typed (without any corrections), contain clearly separated paragraphs and doublespaced lines in order to permit flawless scanning. Computer printouts using dot matrix letters are allowed.

Text files on diskettes may use any of the following formats: Acta 3.0; ASCII text only; AppleWorks; Microsoft Word 3.0, 4.0 Macintosh; Microsoft Word PC 4.0, 5.0; Word Perfect 1.0 Macintosh; Word Perfect PC 4.2, 5.0; Microsoft Works 1.1; Write 1.0; WriteNow 1.0, 2.0. Electronic picture files on diskettes may use PICT, TIFF or EPSF format. Use standard density or high density Macintosh or PC 3.5" diskettes.

**The title** should be followed by the name(s) and address(es) of the author(s).

**Figures and tables must** be accompanied by an explanatory legend.

**Illustrations** must fit within a rectangle of 148 x 220 mm or of 177 x 263 mm. They may be original line drawings (indian ink) or high contrast black and white photographs on glossy paper. Use of scale markers is required for all the illustrations. All figures should be numbered individually. Do not combine photographs and drawings on the same plate. Acceptance of coloured illustrations (photographs or original paintings) depends on financial possibilities.

**References** are alphabetic. They are cited in the text with authors name and year of publication such as: (Moser 1983); Jülich (1984) showed...

**Citations** in the list of referees should be as follows:

Alexopoulos C.J. & Mims C.W. 1979. Introduction to Mycology. John Wiley & Sons, New York, Chichester, Brisbane, Toronto, 632 pp.

Dennis R. W .G. 1963. A redistribution of some fungi ascribed to the Hyaloscyphaceae. Kew Bull. 17: 319-279.

Webster J. 1988. The coprophilous fungus succession: a model system. In: Bobby L., Watling R. & Lyon A. J. E. (eds). Fungi and Ecological Disturbance. Royal Society Edinburgh, Edinburgh. 45-46.

**Page and editorial charges:** The authors will not be billed for publication except when the text is not of sufficient quality for scanning and must be rewritten. Separate charges will be made for coloured illustrations depending on the actual printing costs. If an author does not have the resources to meet the charges he should write to the editor. Acceptance of the manuscript does not depend on the payment of the charges.

**Reprints** must be ordered when submitting the paper. Authors will receive 50 reprints free of charge but will be billed for additional copies according to actual printing costs.
