Notes for Contributors

Contributions in English, Italian, French or German must be submitted to *info@scoms.ch*

Manuscripts must be typed double-spaced *throughout* with a 5 cm margin (= 2 inch), including all quotes and the Notes and References sections, on one side of standard A4 or US letter size paper. All pages must be numbered. The first page contains title, the author's full names and affiliation and the mailing and email addresses. The second page should contain an abstract of about 150 words and up to 6 index keywords not contained in the title. In addition to the paper copy an electronic version of the manuscript must be submitted in either Microsoft Word or RTF format. Each manuscript must be accompanied by a statement that it has not been published elsewhere and that it has not been submitted simultaneously for publication elsewhere. Authors are responsible for obtaining permission to reproduce copyrighted material from other sources and are required to sign an agreement for the transfer of copyright to the publisher.

Tables must be numbered consecutively with Roman numerals and titled, and must be referred to in the text. Each table should be typed, doublespaced, with due regard for the proportions of the printed page. Footnotes to tables should be identified by superscript letters and placed at the bottom of the page containing the table.

Figures need to be in grayscale and embedded in Word as original file (not as JPG).

Photographies/Reproductions need to be in TIFF (or JPG with max. quality). Colors: grayscale. Resolution: 300 dpi for final size (width: 118 mm or 59 mm).

Quotations in the text should be enclosed in "double quotation marks" (German/French: «...»). Use 'single quotes' only within double quotes (German/French: <...>). Words from other languages, and words intended to be especially emphasized, should be *italicized*.

Footnotes should be identified in the text by superscript numbers. They should be kept to a minimum and not be used for listing references. Hyperlinks are acceptable in the text and footnotes.

References should be indicated in the text by the name of the author(s) and the year of publication according to the following examples: "... as mentioned by Jakobson (1972)"; "... as has been argued (Jakobson 1972: 34–38)." "Several authors have noted this trend (Smith 1970; Jones & Cook 1968; Dobbs et al. 1973)." The abbreviation "et al." should be used for references with more than three authors. For *References* to two or more papers by the same authors in the same year, the year should be followed by a letter (a, b, c, etc.).

Reference Section: All works cited in the text must be listed alphabetically according to the first author in a reference section at the end of the manuscript. References to books should include the place of publication and the publisher's name, and references to articles in journals should include volume and page numbers, as in the following examples:
