MESSAGE FROM THE CEO

Quintet Switzerland: A startup with history

In May of this year, at a time when most of the world was locked down, Switzerland's newest private bank opened for business.

Befitting that historical moment, the launch of Quintet Switzerland – which followed the successful closing of the acquisition of Bank am Bellevue, the former wealth management business of the Bellevue Group – took place quietly, without fireworks or fanfare.

Then as now, the world was not clamoring for another private bank; instead, it needs a *better* private bank.

We believe that, over time, Quintet Switzerland will become that bank.

We aim to carve a niche in a highly competitive market by combining the agility that comes with smaller size and the Quintet group's financial resources and reach. Our ambition is to introduce a truly independent private bank, founded upon a culture of partnership – where nothing is more important than doing the right thing for the individuals and families we serve.

With our comprehensive advisory approach, our multi-family office capabilities and cross-border offering, we can add value to our clients and set ourselves apart. Moreover, we have a committed shareholder, an experienced and aligned leadership team, and a shared focus on long-term growth as an advice-led organization.

At a time when such advice matters more than ever, we also continue to deepen our group-wide commitment to sustainable investment, reflecting the priorities of all our stakeholders.

Most importantly, we seek to be the bank where everyone is not only focused on, but is obsessed with, client experience. And where the way we organize ourselves – with less complexity, greater agility and an entrepreneurial mindset – helps us focus on what matters most: the interests of our clients.

A startup with some 50 staff today, Quintet Switzerland also draws upon a long and rich history. We count among our people roughly 20 professionals who formerly served at Bank am Bellevue, which was founded in Zurich in 1993. The Quintet group, previously known as KBL European Private Bankers, founded in 1949, earlier operated in Switzerland for nearly a half-century.

We will build upon that heritage to reinforce growth at home in this global financial center, where there are clear opportunities to serve a significant base of Swiss resident HNWI and UHNWI clients.

Simultaneously, we will seek to increase our exposure to global growth markets by building a robust international cross-border business and putting in place teams focused on serving clients in those parts of the world where wealth is being created. Those markets span the Middle East, Latin America and Asia.

As a startup and as per our strategic and capital funding plan, our cash flow and income statement will reflect the fact that we are and will be in build-up and investments mode for the years to come. In that regard, our results for the first half of this year are in line with our expectations, with losses fully supported by our strong capital base, as will be the case for the coming years.

We are clear about the organization we seek to become and will continue to invest in realizing our ambitions – which we know will take far longer than any financial reporting cycle.

We will continue to move forward with determination and confidence, focused on earning the trust

of the individuals and families we serve, and committed to building a better private bank.

Accounting and valuation principles

The Group's interim financial statements are presented in accordance with Swiss accounting rules for banks (Swiss Financial Market Supervisory Authority FINMA Accounting Ordinance and circular 2020/1, both effective 1 January 2020 the Swiss Banking Act and its Ordinance and the Swiss Code of Obligations).

Valuation principles are unchanged.

Factors affecting the economic situation of the Group during the reporting period and in comparison with the previous period

COVID-19 did affect the economic development of the first half year 2020. The measures taken by Swiss and other Governments are challenging for the economies and the event leads to increased volatility in the financial markets.

There is no indication that the economic situation of the Group significantly deteriorated yet the outlook remains uncertain. The Group continuously monitors the economic and social development to assess and to respond appropriately.
