SWISS BANK'S GOLD POSITION

SWISS BANK'S GOLD POSITION.

From a study of the returns of the Swiss National Bank it is apparent that a considerable amount of foreign balances have been withdrawn since the end of March, without having impaired the Bank's position. Since March 31st, the sight liabilities have been reduced by 422,515,000f., which is the chief item responsible for the fall of 566,004,000f. In the gold reserve in the same period. The note circulation has been reduced by 128,339,000f. The reduction in the abnormally large foreign balances must be welcome to the National Bank, for it represents the reversal of a trend which cannot have failed to be embarrassing to it in the period following the suspension of gold payments by this and other countries. The gold cover for the note issue is now over 135 per cent. The following table shows the position of the Bank week by week since the end of March, comparison also being made with the figures at the end of December:—

The Swiss gold position is exceptionally The Swiss gold position is exceptionally strong, for, in addition to the gold in the National Bank, privately held gold runs into very large figures. The Swiss Budget position is not so good as it was, owing to the falling off in trade. Last year showed a deficit, the first in five years, of 24,200,000f.; the Budget for 1933 reveals a deficit of 70,000,000f., but the Government is taking measures to reduce this deficit.

RESIGNATION OF ARMY CORPS COMMANDER, COLONEL SARASIN.

COLONEL SARASIN.

Colonel Charles Sarasin, Commander of the Ist Army Corps is resigning from his post at the end of this year, for reasons of health. Colonel Sarasin is 63 years of age, and held the command of the 1st Army Corps since 1926, previously he was at the head of the 2nd division for over six years; he was, to begin with, not a professional soldier, but Professor of Natural Science at the University in Geneva. He started his military career with the cavalry. — It is doubtful whether Colonel Sarasin will be in charge of this year's autumn manœuvres of the 2nd division. His successor will no doubt be Colonel Guisan, who at present is in command of the 2nd Army-Corps successor will no doubt be Colonel Guisan, who at present is in command of the 2nd Army-Corps since 1932. For the vacant post (2nd Army-Corps) the following names are mentioned, Colonel Miescher, since 1931 commander of the 4th division, Colonel Roost, Chief of the General Staff, and Colonel Wille.

Mme. Camille Drevet, general secretary of
the International Women's League for Peace and
Freedom, will be expelled from Switzerland on

Twenty-five national sections of the International League, including the British section, as
well as other women's organisations, have protested against the expulsion order.

FEDERAL GRANT.

LANDSLIDES IN SWITZERLAND.

Torrential rains, unprecedented at this time of the year, have wrought havoc in Switzerland during the past week. Many of the mountain passes are closed owing to landslides and damage due to heavy falls of snow.

Small cultivators, especially vineyard owners, are in despair on account of the destruction of their crops. The damage has been exceptionally heavy in Glarus, where the rains have transformed the ravines into foaming torrents, flooding the lower slopes, cutting off communications, and entirely submerging potatoe fields and other areas

under cultivation.

At Fluelen the St. Gothard line has become impassable on account of three landslides, which necessitated women and children in the district leaving their homes by means of the windows at dawn. In other districts fallen rocks and avalanches have resulted in the abandoning of farms to their inhebitrant.

by their inhabitants.

The Swiss postal car services, which carry mails and passengers in the mountain areas and are a familiar sight to visitors to the Alps, have been suspended to the Klausen, Furka, Gothard,

been suspended to the Katassa, Tallian, and the Grimsel passes.

Every part of Switzerland appears to have suffered. The water level of lake Maggiore in the south has risen over five feet, and the Isle of Bornian and Islands and Islan

south has risen over five feet, and the Isle of Borromée is partly submerged.

It is teared that many of the best-known vintages this year will be almost non-existent owing to the destruction of the vines.

GENEVA.

The death is reported at the age of 55 of M. Albert Perrenond, a former member of the Geneva Government (1918,23).

Eight people — two of them women — have been arrested in Geneva following police efforts to trace an international gang of counterfeit coiners who have been flooding Switzerland with false five-tranc pieces for several months.

The police have "killed two birds with one stone," for they have discovered that the same gang was engaged in illicit drug traffic. A pound of cocaine was found in the room of one of the arrested people.

The gang appears to have had widespread agents. The false coins were being manufactured in Milan, smuggled over the frontier and sold to distributors at 1.50 centimes each.

Among those arrested are two dancing girls, who are suspected of engaging in the traffic in

Contrary to my previous assertions, goal average, which would clearly give Servette the championship, does not count and another match on neutral territory will be played next Sunday, thus making the "season" eight weeks longer than in England with their 42 league matches, 3 internationals and 6 cup rounds for the topnotchers. What about that nice little ditty: "Du bist verrückt mein Kind..."

Servette or Grasshoppers? What an open question. And what a peculiarly teasing season for Grasshoppers. They get into all the finals possible, lose the Cup to F. C. Basel, the Challenge National Cup to Young Boys, and now stand quite a good chance to lose the championship Cup to Servette who appear to have found their very best form just at the right time. Well, it would be too bad!
