FEDERAL.

VOLKS BANK AFFAIR BEFORE PARLIAMENT.

As was to be expected both Chambers have sanctioned the Government's plan to come to the aid of the "Schweizerische Volksbank." M. Musy, Minister of Finance explained the reason which prompted the Federal Council to help this institution, he pointed out, that it was essential, that the support should be forthcoming at once, so as to avoid a still bigger catastrophe. —The consequences of the vote in support of the Government's proposal means that the latter is authorised to subscribe to 200,000 shares of 500 frs. each amounting to 100 million francs.

NEW CHAIRMAN OF THE BANQUE POPULAIRE SUISSE.

The Federal Council has appointed Dr. Haab, a former Federal Councillor, Chairman of the newly organised board of the "Banque Populaire Suisse" (Schweiz. Volksbank). The latter has accepted this post, and, according to his own wish, does not claim any remuneration; in his letter of acceptance, he wrote, "I wish to render my country a service, and therefore do not require any payment."

GERMAN-SWISS "SCRIPS" AGREEMENT.

As a result of the negotiations which took place in Berlin last September, a basic agreement was reached with regard to the payment of interest on Swiss capital invested in Germany. By this a 100 per cent. transfer of scrips was assured for Swiss creditors. The concession was won by the Swiss because certain market possibilities in their country could be utilized for the sale of German goods.

A Protocol was signed at the beginning of October embodying the detailed terms of the agreement between the two countries regarding the application of the German Transfer Moratorium as affecting the payment of interest on Swiss capital invested in Germany. The Committee for Germany of the Swiss Bankers' Association with the help of the Swiss National Bank, the Federal Post Office, and the Association of Swiss Banks, arranged the manner in which the transfer mechanism works.

With regard to the articles that Switzerland agreed to accept from Germany outside the normal quotas, in order to furnish the necessary currency for the payment of interest, coal and coke were the chief items, to which were added sugar, malt, and several other products. At the same time the German Gold Discount Bank bound itself not to use any scrips to further "additional exports," exclusive of the afore-mentioned commodities, to Switzerland. It is hoped that this decision will have the effect of liberating Swiss industries from the "additional export" competition in respect of all other classes of goods, although, naturally, on all other markets Swiss exporters will continue to be faced with this competition.

SIMPSON CAR TUNNEL.

Plans have been drawn up for the conversion of the second shaft of the Simplon railway tunnel — the longest tunnel in the world — into a motor road.

This conversion would greatly reduce the inconvenience which is at present caused on both the Italian and Swiss side of the Simplon when the pass is closed during the winter months.

The Simplon tunnel is 12½ miles long. It connects Brig and Isella on the route to Milan and was opened in 1906. The second shaft was completed in 1921, but was never used.

CANTONAL ELECTIONS.

The electors of the canton Basle have agreed to an extra tax (Krisensteuer) for the current year, it is expected that this tax will yield about 3½ million francs. During the Municipal elections, which took place at Thonon, (Ct. Berne) the various parties received the following votes: Bourgeois and radicals 74,304; Evangelical 10,104; Socialists 82,999. The strength of the various parties in the Municipal Parliament are as follows: Bourgeois Party 18, (21); Evangelical Party 2, (2); Socialists 20, (17). The elections for the Conseil Général at St. Imier ended with a victory of the Liberal party, which obtained 23 seats against 18 for the Socialists.

CHOCOLATE AND HORSES.

Tariffs are notoriously two-edged swords, and a very piquant situation has arisen as a result of the Free State Government's policy in this regard. During recent years the Swiss Government has been one of the Free State's best customers for horses. Colonel Ziegler has been a familiar and popular figure in Dublin for several years, and the Swiss Army has been buying most of its best horses in this country. Some time ago, however, in pursuit of its policy of self-containment, the Government, in its wisdom, saw fit to place an embargo, or a prohibitive tariff, on Swiss milk chocolate, with the result that several Swiss firms that had been doing a substantial trade with the Free State suffered considerable losses. It appears now that the Swiss may not buy any more Free State horses unless the Government is prepared to do something to help their chocolate manufacturers. There is an old French proverb, dating from the time of the Swiss mercenary armies, which says, "Pas d'argent, pas de Suisses." So far as Ireland is concerned it can be paraphrased — "Pas de chocolat, pas de chevaux."

The citizens of Berne are to have bear steaks with their Xmas dinner this year.

Three fully-grown animals in the Municipal Bear Pit are being slaughtered for distribution; they are, of course, to be replaced by a new family shortly — for Berne would not feel itself without its bears. These animals are as historic an institution as the wolves of the Capitoline, in Rome.
