the Clearing Milliards. It has been proposed that this money could serve to finance a new action in favour of Swiss from abroad who have suffered as a result of the war. We shall probably hear more about this, in the near future.

In addition to this 121 million francs, the Federal Republic of Western Germany will pay Switzerland a further sum of approximately 530 million francs, of which Switzerland will invest 200 millions in Western Germany. The remainder will be paid in yearly instalments over a period of 27 years.

Even though these payments will only represent about half of the original claims, one must, nevertheless remain satisfied, to a certain extent, when taking into consideration all the existing factors, with the present solution.

### A DEPARTURE.

It is with great regret that we announce the approaching departure of Mr. L. L. Ambord, General Manager for the United Kingdom and Eire of "Swissair".

Mr. Ambord, who has been in charge of the London Office since the middle of last year, has been appointed Director of Traffic and Sales, at the Head Office of "Swissair" in Zurich, and we tender him our sincere congratulations on his well deserved promotion.

Mr. Werner Wyler, late of "Wagons Lits" Buenos Aires, is succeeding Mr. Ambord as General Manager for the United Kingdom and Eire.

A drop or two of Maggi's Seasoning gives your dishes a continental piquancy such as you would find in the creations of a master-chef! Use it in your soups, stews, ragouts, hashes, minces, salad dressings, and notice how it "brings out" the flavour, besides adding a subtle savour which is exclusively Maggi's. Look out for the distinctive, long-necked bottle with the sprinkler top—and remember that it will last a long time, for it is very, very concentrated.

## THE WATCH THE WORLD HAS LEARNED TO TRUST

**PRECISION MAKES PERFECT**

ONLY watches of exceptional precision may be called "Chronometers". The standard of precision which they must attain is set by astronomical observatories and by Official Rating Bureaux under the control of the Swiss Government. Every watch under their supervision must pass the most severe tests over a fifteen day period before it is qualified to receive a Rating Certificate and the title "Chronometer".

The C 180 SC wrist chronometer illustrated is supplied with such a Rating Certificate. The heavy 18ct. English hallmarked gold case, designed by leading craftsmen, houses the famous Omega 30mm movement, and is enhanced by a quietly distinguished dial bearing solid gold figures and hands.
