Sulzer's international experience solves heating problems in Britain

Sulzer's services range from industrial heating and ventilating contracts to a unique thermostatic radiator valve for use in domestic central heating systems. This valve, which is helping British families to get more economy and comfort from their central heating, is called Temset. Set it to the temperature you want — and from then on it keeps the room at that level of heat. Temset even makes adjustments to compensate for the number of people in the room and changes in the weather.

Sulzer Bros./London/Ltd., Bainbridge House, Bainbridge Street, London W.C.1.
