JAEGER-LECOULTRE ATMOS CLOCK

the clock that lives on air . . .

There has been a near-miracle in the craft of clock-making. Jaeger-LeCoultre, with characteristic pioneering genius, have created a clock that operates without human agency: it needs no winding, no batteries, no electricity.

Its name is the ATMOS and it derives its power from the constantly changing temperature. In short, the ATMOS runs on air. It is calculated that after 300 years the ATMOS would show no more wear than would a watch in 12 months. With arresting good looks to match mechanical perfection the ATMOS is a perpetual source of pride and satisfaction.

Jaeger-LeCoultre Products available from:

Asprey & Co Ltd. New Bond St, London W.1. • Garrard & Co Ltd. 112 Regent St. W.1.
Watches of Switzerland Ltd. 16 New Bond Street, London W.1.

Jaeger-LeCoultre, 92 Oldfields Road, Sutton, Surrey W6 8BR. Telephone: 01-644 0105/7

THE WATCH OF THE YEAR

(AND OF THE TWO AFTER THAT)

Most quartz watches—amazingly accurate though they are—will run for up to a year on one battery.

Then they stop.

But not this one.

This is Tissot's new "Thousand Day" quartz watch.

Thanks to a breakthrough in circuit design, it runs for up to three years on a single, normal battery. So it will outstrip an ordinary quartz watch by up to two whole years.

Quartz precision and the Tissot tradition

But "The Thousand Day Watch" isn't just about stamina.

It marks time with military precision.

Its handsome face incorporates a date display unit.

The hour, minute and second hands can be manipulated with pinpoint accuracy.

And it can be adjusted to meet new time-zones with consummate ease.

Your jeweller will be pleased to show you the remarkable new "Thousand Day" quartz watches, starting at £59.50.

They represent yet another major achievement in Tissot's long and distinguished history of watchmaking.

TISSOT
THE THOUSAND DAY WATCH

TISSOT, 67-74 Saffron Hill, London EC1N 8RS.
