**A Clever Stork!**

The "Basler Nachrichten" tells the amusing story of a resourceful stork. He had built his nest on the chimney of a small mill. But the miller disapproved of it, and began to burn wet straw and other fuel. The stork, being a good mason, brought beakfuls of clay and managed to put an air-tight lid upon the chimney, so that it was now the miller's turn to suffer from the smoke. He owned himself fairly beaten, and desisted from troubling his neighbour any further.

**The Price of a Boy.**

The Swiss Federal Court at Lausanne has just had to settle the delicate question of the "marketable value" of a ten-year-old boy, who had been knocked down and killed by a motor-car. Besides the sum of forty pounds granted to him by the Court, his father asked for a further indemnity on the ground that his son would have been able to assist him in his old age. After very complicated calculations and with due consideration to all future possibilities and probabilities, the Court allowed him a grant of ten francs a month from his sixtieth year onward. The present value of this old-age pension was fixed at 380 francs.
