FEDERAL.

ANTON MESSMER †.

In St. Gall, died at the age of 79, M. Anton Messmer, late States Councillor, who during nearly half a century has played an important rôle in the political life of the canton of St. Gall. Born in 1858 at Thal in the Rhine valley, he took up a commercial profession, and in 1882 he founded an Embroidery business at Bazenheid.

He started his political career in 1889 with the entry into the "Verfassungsrat" two years later he was elected a member of the Grand Council and at the same time of the "Erziehungsrat." In 1902 he entered the cantonal government where he occupied the post of Finance Minister, his principal achievement was the new law of taxes. In the years 1907-08 he was "Landammann," in 1912 he retired from the government and re-entered the Grand Council over which he presided in 1916/17.

In 1919, he was sent to Parliament, where he at once made his influence felt, and in 1929 he presided over the States-Council. During his parliamentary life he made a name for himself in the sphere of Finance. Although not a brilliant speaker, he impressed his colleagues by his sound reasoning and his great knowledge in matters of Finance. For a considerable time, he occupied a seat on the Board of the National Bank of which he was Vice-President.

In 1933, he resigned his seat in the Grand Council, and two years later he gave up his seat in Parliament. His native canton as well as the country have lost a great and faithful man, who will be remembered for the many services he has rendered.

KARL ATTENHOFER'S 100th BIRTHDAY ANNIVERSARY.

On the 5th of this month, was celebrated the 100th birthday anniversary of the Swiss composer and conductor Karl Attenhofer, who was born on the 5th of May 1837, in Wettingen. He died on May 22nd 1914 at the age of 77. He conducted for 48 years the "Zürcher Singstudenten" and for 38 years the "Männerchor" Zurich. In 1889 he received the title of *doctor honoris causa* from the University of Zurich for his merits for Swiss Music. One of his finest compositions is "Das weisse Kreuz im roten Feld." A large number of patriotic and students songs have endeared him to circles where music is appreciated.

NESTLE AND ANGLO-SWISS.

The full report of the Nestle and Anglo-Swiss Holding Co., Ltd., explains that the 1936 net profit of Fcs.21,579,362, against Fcs.20,302,229 in 1935, is hardly comparable with that of previous years, not only owing to the re-organisation of the company, but also very largely as a result of the de-valuation of the Swiss franc.

The allocation to statutory reserve is Fcs. 1,174,362 and special reserve receives Fcs. 1,416,638, against Fcs.1,000,000. Special relief fund receives Fcs.2,500,000, against Fcs.500,000, while Fcs.2,500,000, against Fcs.2,000,000, goes to pension and provident funds. The dividend on the Fcs.200 shares is again Fcs.28 per share, while the distribution on the Fcs.10 shares is repeated at Fcs.1.40, leaving the carry forward at Fcs. 6,261,332, against Fcs.5,848,621 brought in.

It is stated that, accompanied by a constant increase in the price of raw materials, the improvement in the world economic situation has been reflected in an increase in the purchasing capacity of the consumer. This tendency has in several cases resulted in an improvement in selling prices, and thus a return to reasonable margin of profit.
