 **Rhätische Bahn**

Rhaetische Bahn Centenary Year

Graubünden is the largest Canton in Switzerland and is served by an extensive and efficient metre gauge main line which celebrates 100 years of operation in 1989. The celebrations will include Special Steam and Nostalgic electric trains, open days at the works and depots, and special scenic journeys over most of the routes, including the famous Bernina. All this and much, much more is being filmed with the 'Official Approval' of the Rhaetische Bahn during several visits to the area this year. As is now our usual practice, we shall be releasing a series of programmes studying the RhB and the surrounding area. Look out for our advertisements in the railway press for further details and SPECIAL OFFERS!

4 new films which together provide an in depth study into the history and modern day running of the B.L.S. Railway. *Made with the approval and full co-operation of the B.L.S.*

No 112

During 1988 the BLS Railway, which crosses Switzerland's mighty alpine backbone via the Lotschberg tunnel, has been celebrating 75 years of successful operation. To commemorate this event two locomotive parades and a variety of special trains and special excursions combining electric and steam trains with steam paddle ships were arranged. The first parade of electric locomotives took place at Frutigen, the second parade featuring steam locomotives from all over Europe took place at the picturesque station of Darligen. This is the official souvenir video tape of these and many more events which took place during the celebrations.
