EXPRESS POST

Brain Mason would like to hear from anybody who is interested in the Gotthard Line, to discuss signalling and operational methods. Also he would like to obtain track plans for this line, to allow him to choose which is the best to model in 'N' scale, can anybody help? Brian's address is :- 7 Higham Close, Sprowston, Norwich. Norfolk. NR7 8UF

Dr Perry has some Rh.B. 'HOM scale, goodies' for sale which are surplus to his requirements. Please contact him on Telephone number: 0772 53765.

S. Horobin wrote to tell me about a book he spotted in the Tourist Office in Bergün, titled 'The Educational Trail along the Albula Railway'. The 88 page A5 size book costs just SFr.6.00, and is full of photographs, diagrams, area and railway history and details the walk from Preda to Bergün. An important point is that both the text and the pictures are in English!

C. Elliott has gone to great lengths burning the midnight oil, by delving into archive records, pondering over statistics, consulting the runes, or was it that he read a book about anniversaries? No matter, here are the anniversaries. The dates shown are **NOT** for planned anniversaries but are those of the original construction.

Yellow coach triangles. In 1988 the S.E. printed a request from a member for information on the triangles painted on some passenger coaches. That same member has now gathered the information. The triangles indicate which coach is fitted with a keybox to allow the train staff to close the automatic doors prior to departure.
