of repairs. For many years, the line was left to the ravages of the long and very severe winters you get in this area and at these altitudes.

To help pay for this work the Furka Bergstrecke is issuing another 3 000 shares of SFr. 300- each. Before this issue more than 11000 shareholders have already bought about 11 million francs worth of shares. At the moment all is going well and we can be reasonably confident that steam trains will be able to carry passengers past the Rhône Glacier again at the start of next season. This will not be before July 2000 as winter lasts very long here.

The first three days, July 14th, 15th and 16th 2000, will be reserved for the special

opening trains with reserved seats only and at a special fare. Every passenger for this event will receive a special commemorative gift and a personal numbered certificate. Book early as about 50 % of the trains are already sold out! The following few days are reserved for tour operator charter trains. From 24th July until 17th August trains will run daily. From 18th August onwards the trains will run every Friday, Saturday and Sunday, until the winter returns, normally at the beginning of October.
