TELL ME ON LAKE LUZERN

The Lake Luzern Boat Company have introduced an excursion entitled 'Tell Me' - Stories and the History of Lake Uri. The boat leaves Pier 2 in Lucerne at 1835 every Saturday from July 7th till August 25th. Whilst the boat sails towards and round Lake Uri there is an audio-visual presentation on board and on shore with photo stops at the Schiller memorial, Rütli, Tellskapelle and Treib.

Having experienced it in May as part of the celebration of DS Uri centenary I can vouch for its quality and interest. Please let SGV know when you book that you are English and they will try to broadcast accordingly.

The next Swiss Express will include an article about the celebration.

RIDE THE FOOTPLATE

As far as I am aware it has not been mentioned before that it is possible to have a footplate ride on a BRB locomotive. There is a SFr50 surcharge but where else can one experience something quite so exciting? Reservations are obviously essential.

BAHNEXPO AT THE VERKEHRSHAUS

The transport museum in Luzern is holding a special large railway exhibition from 29th September to 28th October and which will incorporate this year the bi-annual Model Railway Exhibition from 6th-14th October.

Entitled BAHNEXPO 01 the exhibition will include lectures, model displays, the opening of a new exhibit called 'The Modern Railway' as well as the current developments on the 'Railways in Art' exhibit. Lectures will take place daily at 1400. The model railway displays will be coordinated by SVEA and will include dioramas and a model railway under construction. 'The Modern Railway' is conceived around the theme of high technology and will become part of the permanent displays. Involving inter-active and responsive displays, play learning and information technology it will be quite an experience for those who see it, young and old.

The Model Railway Exhibition is extensive and well worth a visit on it's own account. With the added attractions of the Museum it is not to be missed.

The exhibition has been made possible by the participation of the SBB, BLS AlpTransit, AlpTransit Gotthard and the Ministry of Transport as well as the Verkehrshaus itself.
