ity of the resulting monochrome pages and the amount of work involved. If we were to copy to colour, for the later editions, then the cost would be too high bearing in mind the special paper and inks needed.

- Members have wanted a Swiss Signalling booklet and John Jesson has agreed to update his previous articles. We have just received from Switzerland information, which it is hoped will enable John to access information on the new LED signals such as those in the Bellinzona area. I will keep you informed.

## EXHIBITIONS - Paul Hannant

If you are able to assist in "manning the stand", even if only for a few hours, it would be most appreciated and it can be fun! Offers of assistance can be emailed to me at: Exhibitions@SwissRailSoc.org.uk or Tel. 01885 483697 (evenings).

### **Do you have a Swiss layout – which you are exhibiting this year or next?**

Then let me know, so we can let all our members know, but bear in mind the copy dates for Swiss Express at the front of the journal. We need to know at least 2-3 months in advance.

We are frequently asked whether our members have Swiss layouts available for exhibitions. Please let me know if you have an exhibition layout, either one already on the circuit or one which has not made an appearance yet, as I am looking to put together a portfolio. Please contact me for a form for layout details if you wish to be included on our register.

Happy Modelling!
