David Stevenson

on request, usual disclaimer obviously!

Please note that due to the venue site, wheelchair access is not possible.

The location is on the first floor of an historic building and there is no lift.

WHY SWITZERLAND?

First impressions run deep. Childhood memories of summer holidays with that first encounter with unknown trains at Basel Bundesbahnhof – overhead line, Leichtstahlwagen, Ae4/7s, guards with bags knocking their shins – with paddle steamers and with the discovery that there were so many different railways, yet each was so Swiss! Zweibach for breakfast; packed lunches with rolls and some chocolate; at dinner the soup brought in a separate individual tureen for each of us, to be poured into the bowls at the table and our own napkins in envelopes. And each outing always began with a train journey, or at least a boat or a chairlift ride!

No longer do 'Crocodiles' take freight on the Gotthard, the Ae6/6s have lost their names and the Firstbahn has cabins, but there is yet quality in all things – clean shops, reliable transport, full measures, thorough ski teaching – and that 'certain sort of a something' among the mountains and meadows, cities and ski slopes, which will always be Switzerland – and above all it is the Land of My Grandfather.

Paul Russenberger – SRS Immediate Past Chairman

Part 4 of Paul Russenberger's "The Electric Railway." will be in the September magazine.
