For over a century we have been producing at our mills in Switzerland and abroad Spun Silk yarns for the weaving and knitting industry as well as for the manufacture of sewing silk.

Spun silk yarns are made of *pure silk*.

Thirty years ago we were the first spinners to start making yarns of Rayon staple. To-day this vast field of activity comprises raw, dyed, mixture and speciality yarns for all requirements. The wide experience of over a quarter of a century has gained for us an enviable reputation for these products. Rayon staple yarns produced on the Spun silk process are made of long staple rayon and are therefore of the highest quality. Manufactured goods whether woven or knitted are long-wearing and stand countless washing.

A separate department has been specializing for over ten years in the production of the well known Sisi knitting wools.
