HECOWA

IMITATION LINEN

A perfected cotton fabric

HECOWA is a cotton cretonne to which a highly perfected finishing process has given a lasting linen effect.

HECOWA fabric is more durable and resistant than plain cotton and less expensive than linen. It is therefore a most interesting line to carry.

HECOWA fabric is remarkably suitable for table and bed linen, blouses, summer frocks and beach wear.

HECOWA "SANFORIZED" fabric is a product especially intended for work wear, aprons, overalls, etc.

HECOWA dyed and printed fabrics are fast to light and laundry.

Honegger-Lanster

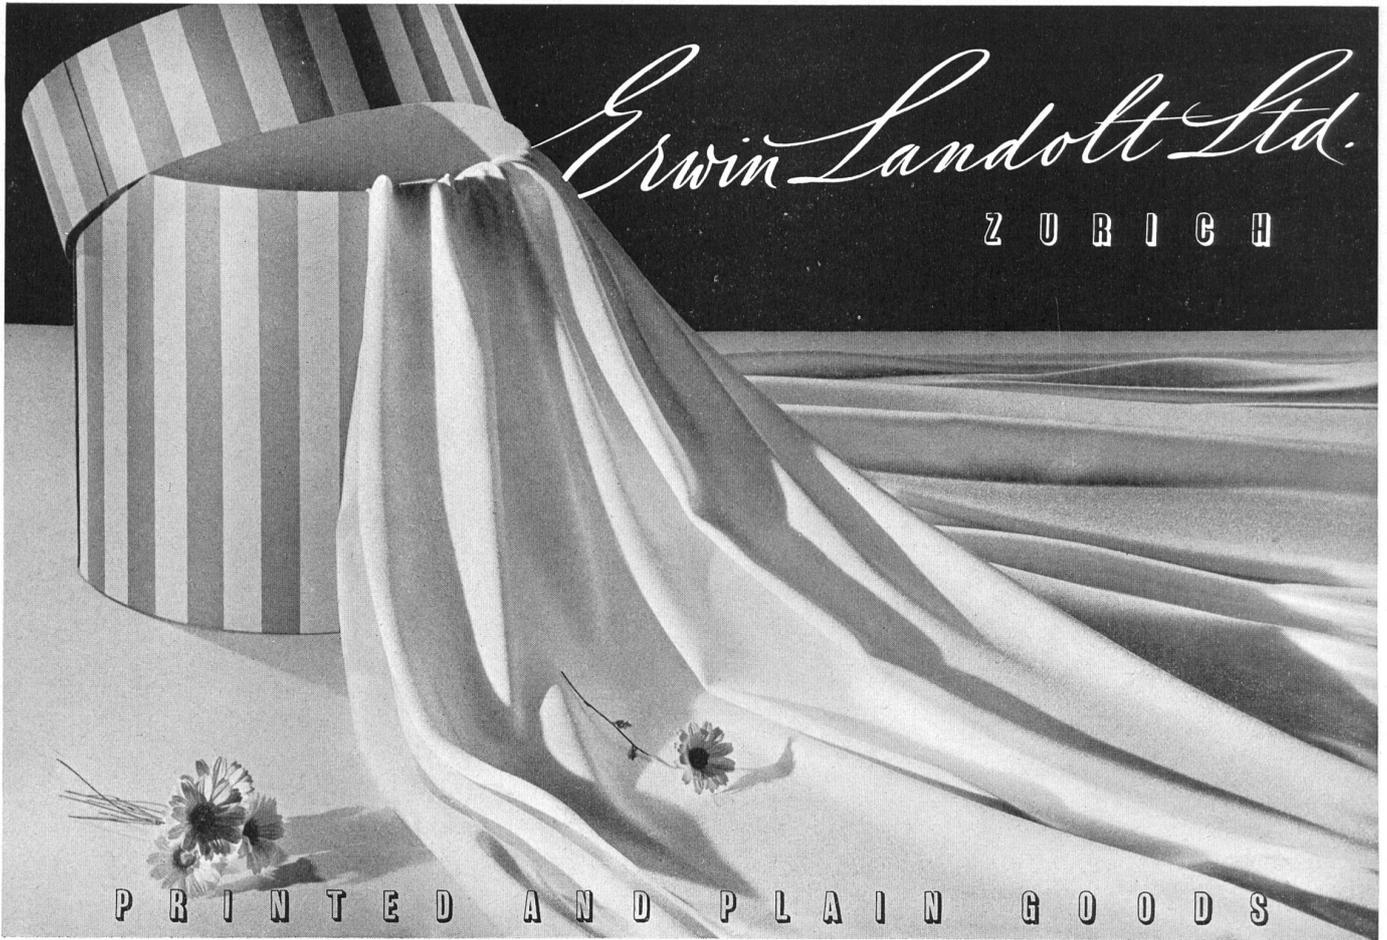

From humble beginnings, the Swiss textile industry has risen to predominant rank on world markets. Ever since 1851, Messrs. R. Zinggeler have been supplying silk yarns of the finest quality: special silk and mixture twists for weaving, haberdashery, hose and cable manufacture.

TISSAGE DE SOIERIES
ZURICH

AN important task of our sales organization is carried out by our yarn and fabric development department at the head of which is a technician with a lifelong experience in the creation of novelty fabrics. The aim of this department is to illustrate in the finished article the various possibilities offered by our products, to create new ideas and to propagate our yarns.

Our fabric collection has in a large measure contributed to the rapid growth

of staple fibre yarns in the past 15 years.

With no intention of teaching our customers their trade, we are desirous of placing at their disposal the experiences gained in this department and to short-circuit the too often long way required until a new article is ready to be placed on the market. Our fabric samples are following the trend of fashion and are appreciated in an ever growing manner by our customers all over the world.
