Commentarii Mathematici Helvetici (CMH)

A journal of the Swiss Mathematical Society
Published by the European Mathematical Society with the support of the Schweizerische Akademie der Naturwissenschaften and the Stiftung zur Förderung der mathematischen Wissenschaften in der Schweiz

Aims and Scope

Commentarii Mathematici Helvetici (CMH) was established in 1928. The journal publishes original papers on all aspects of pure mathematics and, to a certain extent, papers on applied mathematics. Through the services of eminent mathematicians who assist the editing committee, *CMH* has won an international reputation which ranks it among the leading publications in the field. The journal is open to contributions from mathematicians worldwide.

Instructions for authors

Submission of manuscripts

Authors are encouraged to submit their papers electronically. Please send your file (tex, dvi, pdf or ps) by anonymous ftp to our server:

ftp.math.unibas.ch pub/Commentarii/incoming

or by email attachment to the address below.

Send an email to cmh@unibas.ch with a letter of submission containing the following information:

- Name of author(s) together with email address(es)
- Complete mailing addresses
- Title of paper
- Number of pages
- Date of submission
- Name of the file(s)

For further information please contact cmh@unibas.ch.

Articles may also be submitted by sending one hard copy to the editorial office at:

Commentarii Mathematici Helvetici
Mathematisches Institut der Universität Basel
Rheinsprung 21
CH-4051 Basel
Switzerland

Submission of a manuscript implies that the work described has not been published before and that it is not under consideration for publication elsewhere.

Format of manuscript

In case the paper is accepted for publication, the Journal strongly encourages authors to make available LaTex files for typesetting purposes. Authors are advised to create their LaTex files in "article" format with text width set to 125 mm and the page depth to 185 mm (without headers, 195 mm including headers).

The title page should include the name, affiliation and address (together with email address) of each author and a short abstract.

Footnotes should be avoided.

To avoid distortion from rescaling, figures must not be wider than 125 mm. They should be sent as EPS file (encapsulated postscript).

All figures, tables, etc. should be numbered, with the insertion place clearly indicated.

References should be listed at the end of the manuscript in the form: author(s), title of paper, journal title (abbreviated in accordance with *Mathematical Reviews*), volume number, year of publication in parentheses, and page numbers. For books, indicate also the publisher. The reference list should be arranged in alphabetical order. Items not cited in the text should not appear in the list.

Copyright and Offprints

It is a condition of publication in the Journal that authors assign copyright to the Swiss Mathematical Society. This ensures that requests from third parties to reproduce articles are handled efficiently and consistently and will also allow the article to be as widely disseminated as possible. In assigning copyright, authors may use their own material in other, non-commercial publications provided that the Journal is properly acknowledged as the original place of publication.

Authors of papers published in the Journal will be entitled to 30 free offprints, to be shared between authors of joint papers. Extra copies of offprints may be purchased if ordered on the form sent to the corresponding author with the proofs.
