COMMERCIAL RELATIONS WITH RUSSIA.

Once again various industrialists in Switzerland have approached the Federal Council, regarding re-establishing commercial relations with the Soviet Republic; they expect, however, that the Swiss Government should guarantee the financial transactions, which clearly shows, that these firms have but little confidence in the integrity of their prospective customers. In acceding to the wish of these industrialists the Swiss Government would saddle themselves with a heavy responsibility towards the country, besides there is no article in the constitution which would sanction or justify such an undertaking. There is but little hope that the Federal Council will entertain such a proposal.

15 YEARS' WORK OF THE COMMISSION DES SUISSES A L'ETRANGER.

By Dr. A. LATT.

(CONTINUED).

I like to think of the hot discussions we sometimes had in the Council where all the Societies were represented. I am elated with memories of great meetings at Ashburton Hall, at Steinway Hall, at Westminster Hall, not to speak of my lecturing tours to the groups in the provinces, to the universities, to Rotarian and other clubs, at soldiers' hostels and hospitals, to wounded soldiers, to Swiss munition workers at Crayford, at the student's homes, at press meetings.

I know it was useful work, and I hope some was for the permanent good of the Colony. To myself it has been an inspiration and a starting point for work at home on a broader scale. After the visit here in 1918, of Messieurs Baudat, then President of the N.S.H., de Reynold, President of the C.S.E. since 1917, and Dr. Schoop, then Secretary of the N.S.H., it was agreed that the propaganda for the foundation of new groups on the Continent should be directed by the central office in Switzerland, whilst we should write to the Swiss Societies overseas. We brought in 19 groups in the 1st "bag" and 20 in the 2nd year. Then at a meeting at Soleure in 1919, where Mr. Baer and I were present, the S.S.E. was founded, and Mr. de Traz was elected Secretary. In 1920 I was sent on a lecturing tour to France and Italy as a result of which we got the Groups of Florence, Genoa, Milan and Le Havre.

My work being mostly journalistic, the late hours every day began to tell, further development of my work in this country was not likely, and so in 1921 I accepted an offer to return to Switzerland, and at the same time to my old job of teaching.

When the C.S.E. got both a new President (Dr. Martz) and a new Secretary (Dr. Steuri) in 1921, I was elected a member of the C.S.E. and given two jobs which were considered very hard: the task of finding the money for the S.S.E., and that of bringing about an amalgamation between at least 5 publications to all of which the Swiss abroad were expected to subscribe. The finding of Frs. 50,000 in Switzerland is harder work than it was in this colony. Still I was lucky enough
